EXPO · TAIWAN 2023.11.30-12.03

Post-Event Report

Opening Ceremony Highlights

President Tsai Ing-Wen

Healthcare Expo is an important platform for government and the private sector to work together to promote the healthcare industry and position it as essential to global healthcare supply chains.

Si-Kun Yu, Minister of Legislative Yuan

This is the first exhibition in the world to bring together hospitals, IT/ICT and other sectors working together to push the boundaries of future healthcare.

Meet the cutting-edge technologies
in future healthcare!

Opening Ceremony Highlights

Chi-Huey Wong, President of IBM

The Expo will lead to cross-disciplinary collaboration and establish Taiwan as a hub for global medical innovation.

Barry Lam, VP of IBM

Taiwan is an ideal place for the development of smart healthcare; over 90% of AI servers are made in here and it has robust supply chains.

Pan-Chyr Yang, VP of IBM

The Expo began to focus on building a "digital health ecosystem" three years ago, having formed strategic partnerships around the world.

Chang-Hai Tsai
VP of IBM

David Rhew

Global Chief Medical Officer & VP of Healthcare, Worldwide Commercial Business, Microsoft

Healthcare⁺ Expo Themes

Nine Themes
2,300 Booths

Hospitals

World-class and regional-leading medicine, research and innovation.

- Advanced cancer therapeutics
- Robotic & minimally-invasive surgery
- Regenerative medicine, gene therapy
- Genetic testing, screening of health risk
- Health management, personalised care

Exhibitors

- Cathay General Hospital
- Chang Gung Medical Foundation
- Changhua Christian Hospital
- Chi Mei Medical Center
- China Medical University & Healthcare System
- E-Da Hospital
- Far Eastern Memorial Hospital
- Fu Jen Catholic University Hospital

[View Hospital-in-Focus](#)

Medtech

Novel technologies and products built for therapeutics and patient care.

- 5G in healthcare, contactless technology
- Medical display, surgical solution
- Hand-held ultrasound, AI-assisted diagnosis
- Organ-on-a-chip, digital dentistry
- Hospital IT, workflow optimisation
- Contracted services for medical devices

Exhibitors

- Acura Tech Limited Taiwan Branch
- AISOL Technology Corporation
- Beckhoff Automation
- BenQ Group
- Big Data Mobile Company
- Biomdcare
- BIONET Corp
- BRELYON, INC.
- BriteMED Technology
- CHC Healthcare Group

[Full list of exhibitors](#)

Biotech

Diagnostics and laboratory services for screening, prevention and treatment.

- IVD devices, microfluidic chips
- Cancer screening
- Pharmacogenomic testing
- Cell products & cell therapy services
- CRO, CMO & CDMO services
- Lab apparatus / reagents / workflow automation

Exhibitors

- A-NEURON ELECTRONIC
- ACT Genomics
- aetherAI
- APEX BIOTECHNOLOGY
- Applied BioCode Taiwan
- Asia Pathogenomics
- BECKMAN COULTER TAIWAN
- Bio Preventive Medicine
- BIOCARE TECHNOLOGY
- bioMerieux

[Full list of exhibitors](#)

Health Tech

Longevity, and gerontechnology developed for healthy ageing society.

- Smart wearables
- Rehabilitation devices
- Exoskeletons / assistive robotics
- Chronic disease prevention & management
- Filter / purifier / disinfection technologies
- Nutrition & supplements

Exhibitors

- Acer Medical
- ASUSTek
- ATTRA GIAND INDUSTRIAL
- AUYCI INDUSTRIAL
- B. Green Technology
- Bang Xin Enterprise
- BEMAR COMPANY LIMITED
- BROADSIMS
- CARVING ENERGY CONTROL

[Full list of exhibitors](#)

Bio-agricultural Tech

Health-centred, value-added, eco-friendly agribusiness.

- CRO services
- Nutrition food raw materials, & ingredients
- Certificated local produce
- Food safety examination, services
- Gardening products and applications

Exhibitors

- Ministry of Agriculture
- CHENG HONG AGRICULTURAL BIOTECHNOLOGY
- Chi Lai Biotechnology
- D&T Health Corporation
- Dr. Plant
- Exland Biotechnology
- Fecula Biotech
- Naturalism Farm

A new approach is needed to transform the complexity of 'precision oncology' into opportunities that improve patient care

Increasing number of targeted therapies launched, but for niche indications ²

Greater uptake and use of NGS and Comprehensive Genomic Profiling (CGP) in routine clinical care ³

Growing need to consider new biomarkers and genomic signatures in the diagnostic workup ⁴

Increasing patients awareness on new diagnostic treatment options ⁵

#VeriSee DR by #AcerMedical is an AI-based diagnostic software for diabetic retinopathy (DR) that identifies referable DR patients. Its core AI model has been trained from images labeled by retina specialists, and the software has been validated in a pivotal clinical trial against rigorous clinical reference standard. It leverages AI deep learning techniques to produce diagnosis results similar to that of ophthalmologists. It solves problems of ophthalmologist shortage..... 查看更多
