The Future of Cancer Care: Moving from Promise to Reality

慈濟世

日出太平洋，先照花蓮。

1986年，慈濟基金會證嚴上人創辦了**花蓮慈濟醫學中心**，

從**急重症醫療**、**癌症醫療**、**難症罕症醫療**、**災難醫療**、

精準醫療、**AI智慧醫療**、**再生醫學暨細胞醫療**、

國際醫療與創新研發等領域持續精進，

屢屢寫下歷史新頁。

中西醫合療猶如東方琉璃光破曉，

為急重難罕症病人點燃生命新希望。

細胞治療

洽詢分機：15931、18666

本院基因暨幹細胞研製中心，成立於2003年，為全
台第一間醫院自有且符合GTP細胞組織優良操作規
範之細胞工廠。

提供特管法或臨床試驗所需之細胞製劑、協助或代
為開發符合GMP製程規範之細胞製劑製程、周邊血
(幹)細胞自存庫、CAR-T (Kymrich) 製備前所需之
細胞濃縮、凍存、簽收、保存、解凍等服務。

創新研發

洽詢分機：15639

本院創新研發以病人為中心為初衷，榮獲多項國家新
創獎，針對惡性腫瘤等難症積極研發出本土新藥，近
年因應新冠肺炎，研發淨斯本草系列、插管防護罩、
隔離罩等產品，首創整合醫院服務的遠距智慧藥箱系
統。

本院產學合作、研發專利及技轉量能豐沛，提供醫
藥、醫材、資訊可交易專利技術，歡迎洽詢合作！

臨床試驗

洽詢分機：17602

本院臨床試驗中心擁有數名專職研究護理師，具備執
行全球性臨床試驗之經驗，近年來合作對象包括全球
前十大藥廠及國內重要生技公司，執行超過130件臨
床試驗，包含早期、細胞治療及醫材等各類臨床試驗
案。

中心提供護理師人力、經費、合約、PI媒合等服務，
確保受試者在嚴謹和安全之情況下接受試驗。

智慧醫療

洽詢分機：13760、14804

本院人工智慧醫療創新發展中心，以智慧化、行動
化、大數據為發展目標，透過與資通訊夥伴合作，發
展AI智慧科技輔助醫療團隊守護民眾健康。

近年與商之器 (EBM)、輝達 (NVIDIA) 攜手打造人
工智慧 (AI) 行動化平台，合作開發行動巡房 APP、
打造 AI 乳篩檢測等，多項醫療 AI 項目開發中。

Advantech

Full Information

Advantech Telehealth Solutions

- Shortens Patient Travel Times
- Expands Healthcare Access
- Minimizes Appointment Cancellations
- Reduces Healthcare Costs

Advantech iWard Solutions

- Optimizes Operational Efficiency
- Eliminates Paper-Based Processes
- Enhances Patient Care
- Improves Communication Efficiency

Medical-Grade Monitors PAX Series

- Wide 21.5", 23.8", 24.07", 27", 32", 54.64" screen with optional FHD resolution & 4K UHD resolution
- Fanless design with upgrade IP54-rated protection for superior hygiene and infection control
- With 10 point multi-touch control function

imedtac

Full Information

Smart Operating Room Solution

- Easy to record videos and take screenshots
- Record each step of safety checks in surgery
- Streaming in real time
- Show important reminders

Telehealth Solution

- Integrates patient information, video images, and vital signs to improve diagnosis efficiency
- Supports instant telemedicine consultations from various specialties
- Supports external image source, screen extension and video recording

Automated Dispensing Cabinet

- Multiple Authority Management
- High Levels of Medication Security
- Medication Inventory Management

Quanta Computer Inc.

Full Information

QOCA ward

QOCA® smart patient terminal is a cloud-based solution designed for hospitals to create a patient-centric environment and assist medical staff in providing comprehensive personalized care to each patient.

QOCA atm AI Platform for Patient Care

- Video Conference
- Content Sharing and Collaboration
- Content Management
- Scalable, Secure and Robust
- Host Controls
- Installation Free and Cross Platform

QOCA aim AI Platform for Smart Medicine

QOCA aim, the AI aided medical imaging and automatic inference platform now serves a crucial part in our Smart Hospital Solution, within this platform physicians would be able to efficiently co-work to conduct data processing, data training and generate clinical meaningful results for diagnosis.

AUO Display Plus

Full Information

AUO Display Plus - Smart Operating Room Dashboard Solution

- Integrates all data on a single dashboard
- Access to surgery lists and historical records
- Real-time Video Streaming
- Record video, snapshots, and tags
- Plug and Play

AUO Display Plus - Digital Health Switch

- Support dual-system split-screen consultation and office
- Paperless Digitization
- Synchronized extended use of external devices
- Practical and user-friendly functions especially designed for medical care.
- Information Security Accreditation

Dell Technologies

Full Information

Smart healthcare big data platform

Accelerate innovation with a market-leading scale-out NAS solution combined with the world's #1 server to realize Smart healthcare platform value.

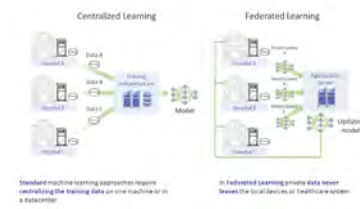

Dell Technologies Digital Pathology Storage Architecture platform

Drive and accelerate the digital transformation of healthcare with a broad portfolio of digital pathology solutions.

BenQ Group

Full Information

AI Federated Learning Platform-Liver Cancer Detect

- Using physiological test data to quickly predict the risk of liver cancer through an AI model
- A federated learning platform improves prediction model accuracy and only model parameter exchange, safe and does not infringe on the patient.

DentCare BQP-D15 3D Printer

- Productive printing volume & speed
- Flexible & open system
- High resolution & accuracy
- Superior optical system
- User friendly interface software

Qflux Dialyzer

- 2023 Taiwan Excellence Award Winner
- Available in full product range, including 6 high flux and 6 low flux models.
- Outperform in medium and large molecules clearance.

Microsoft

Full Information

Digital Healthcare Integrated Solution

- Implementing Hybrid Cloud to deliver remote healthcare
- Medical Record integration with FHIR
- Bed care system

Far EastTone Telecommunications Co., Ltd.

Full Information

FET 5G telemedicine

- Reinforcing the problem of insufficient specialist physicians, shortening the journey for medical treatment, and improving the convenience of local people to seek medical treatment.
- FET 5G telemedicine can link emergency medical resources to instantly return information on the injured.

Wistron Medical Technology

Full Information

Health365

Digital Pathology Platform

Keeogo Powered Knee Orthosis

- Healthcare from hospital to home
- Tele-medicine
- Precision and digital healthcare
- Chronic disease healthcare
- Healthcare ecosystem

- DICOM image quality management
- DICOMweb digital wsi browser
- Remote meeting & Collaborative annotation
- mCODE structured reporting
- AI-assisted diagnosis
- Federated learning

Keeogo is "Dermoskeleton", a sub-class of exoskeleton, and is a low-profile, innovative, and user-initiated device different from existing exoskeletons. It integrates seamlessly with movements initiated by the user herself, and provides assistance based on the detected activity.

U-ARK Technology Co., Ltd.

Full Information

Long-Term Care Information Management System

Customized Information System

E-Commerce System

We provide a fully-integrated electronic healthcare record system (EHR) to fit facilities' needs, including skilled nursing and senior living. U-ARK provide your team the right tool and technology, allowing staff to spend more time with residents.

Provide various software services and customized systems: Assist the central and local governments in the digital transformation of social and health administration, build a stable integrated system, and introduce the project management coaching process.

E-Commerce (Wholesale): Connecting ERP modules with our supplier management systems.
E-Commerce (Retail): Create e-commerce websites for the pharmaceutical and retail industries, integrate online and offline sales channels.

Smart Ageing Tech

Full Information

Longterm Care Solution

Adult Day Care Solution

Home Care Solution

- 67 nursing records, over 2500 professional terms
- A supportive solution for caregivers to classify the nature of wounds
- Personalized detection of vital signs monitoring
- Mobile application

- Expense declaration and reimbursement
- Expense record of resident
- Intellectual library for precision care systematically lists all the essential data required.
- Mobile application

- The Hi Ju app - user-friendly interface for all ages
- Transparent records of home care services for home caregivers
- Intelligent shift scheduling
- One-step expense declaration and reimbursement

SYSTEMX CORPORATION

Full Information

Hololens2

Patient Oriented Medical Resource Planning

- Emergency ambulance system
- Long-term care support
- Communication between doctors and patients
- Telemedicine
- Rehabilitation
- Medical education
- Surgical assistance

- Health Care Net
- Telemedicine
- Home healthcare
- Internet of Medical Things
- Microservices
- FHIR platform
- My Health Bank SDK
- Agile Form Wizard

Huede Healthtech Co., Ltd.

"Huede" Infusion Transmitting System, PTS_P

- On a ward-based basis, applications can be extended to all ward care units throughout the hospital that use infusion pumps
- Healthcare professionals can effectively grasp the status of patients and equipment

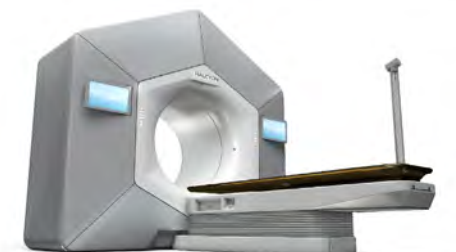

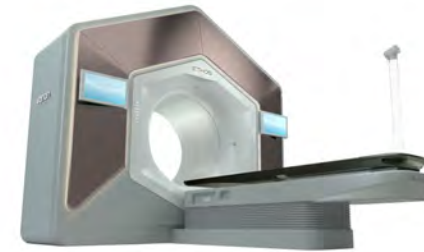

Advanced Physiological Transmitting System Fetal Monitor Central Station APTS_F

- Electronic record form, transfer in-hospital medical records
- Automatic capture and record of fetal monitor data
- Immediate Alarm, greatly increasing patient safety
- Complete record of alarms, access to patient history data and management

Advanced Physiological Transmitting System Ventilation APTS_V

- Electronic care form, transfer in-hospital medical records
- Automatic capture of respirator data, reducing form transcription time
- Improve care efficiency to serve more patients and improve staff cost-effectiveness

Varian, a Siemens Healthineers company

Varian Ethos Therapy - An adaptive intelligence solution

- Access diagnostic quality MR, PET and CT images during planning and treatment
- View daily changes in patient anatomy at the console with high quality iCBCT images
- Optimize visualization of large target volumes

Varian Halcyon

- Halcyon is designed to achieve high-quality care by optimizing rapid image-guided IMRT and RapidArc® radiotherapy. Every patient will receive treatment characterized by a high level of clinical quality in terms of dose conformity and low dose to organs at risk.

Mikotek Information Inc.

Miko Drip System MK-D2010

- Monitoring real-time status of IV drips, and enable caregivers to receive abnormal events and IV status notifications with mobile app in the distance.
- Smart notifications according to the combinations of different IV bags and IV sets.

Miko Drip System MK-D1010

- Monitoring real-time status of IV drips, and enable caregivers to receive abnormal events and IV status notifications with mobile app in the distance.
- Smart notifications according to the combinations of different IV bags and IV sets.

Energy Resources International Co. Ltd., Hsinchu Branch

Handheld Dental X ray machine, AG100

- Battery-powered design
- Compact, portable
- Low radiation dosage
- High image quality
- Backscatter shield provided to prevent operator from radiation exposure
- TFDA/FDA approval

Portable X ray unit for Extremities and Chest, CVXair

- First development of X ray machine for extremities and chest screening
- Lightest portable X ray machine in the world, only 4 KG
- Can be used in far distancing tele-medicine or home care environment
- Can be cleaned and disinfected by plastic bag wearing and removal

Miniature X ray machine for veterinary medicine, AG100V

- 100% designed and manufactured in Taiwan
- Carbon nanotube X ray technology
- Small size, easy to use, can be used in X ray room or operation room
- Suitable for small and medium animals, reduce the cost for purchasing of stationary X ray machine

InnoCare

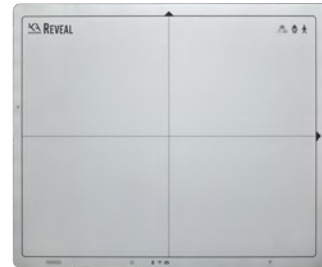

Full Information

X-Ray Flat Panel Detector-Flexible 14

- Transfer in a flash
- Smart design for Hot swap and seizing image in time
- Light weighs : 2.5kg (Csl) / 2.3kg (GOS)
- Easy cleaning – IPX6
- Self management and monitoring

Dual Energy X-ray Flat Panel Detector

- Soft-tissue differentiation
- Bone and soft tissue differentiation
- Single exposure, no motion artifact
- Retrofittable
- Fixed and mobile applications
- 80% DQE
- Portable and retrofittable

BriteMED Technology Inc.

Full Information

BriteMED 12-Lead Portable ECG

- Hand-held size for true portability
- 12-lead waveforms real-time displayed for precise diagnosis
- APIs ready for quick PACS/HIS integration
- General A4 paper for print report, saving costs for thermo paper

BriteMED® 27

- The 700-nits high brightness panel enhances clarity and details for both color and grayscale images1.
- Multiple inputs, including advanced HDMI and 3G-SDI, enable flexible connection with imaging modality machine or surgery systems.

BriteMED Battery Medical Cart PC

- 3 high capacity batteries (up to 23,400 mAh) provide uninterrupted power on demand
- Slim design & modular structure, easy for installation and maintenance
- The antimicrobial housing and the IP65 front panel facilitate cleaning and sterilization for infection control

NanoRay Co, Ltd.

Full Information

RevoluX Hand X-ray Imaging Diagnostic System

- Low Risk: it only takes 20% of the traditional shooting dose to achieve the same diagnostic purpose.
- Change the Experience: it allows patients to complete detection and diagnosis in one spot.
- Simple and Fast: it only takes 5 seconds to complete the image shooting.

Epson Taiwan Technology & trading LTD

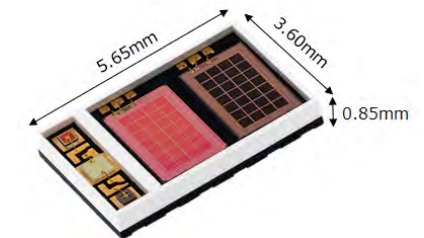

Full Information

Optical Engine

- Optical Engine for binocular see-through smart glasses
- High image quality based on Epson Core TEchnology
- Embedded display control circuit and motion sensor make easy development
- Expansion port make various smart glasses to add function easily

PPG Module

- 25uA low power (25uA~)
- Small and thin package (Height: 0.85mm)
- High sensitivity based on 2PDs and 3LEDs structure

Onyx Healthcare Inc.

Onyx ACCEL-JS500 (i) : Medical Imaging AI computing Platform

- NVIDIA Jetson AGX Xavier or AGX Xavier Industrial Platform for Medical AI usage
- Support AGX Xavier Industrial Platform with 10 years Longevity
- 512-core Volta GPU with Tensor Cores
- Support optional 3G or 12G or HDMI 2.0 input for image capture

Onyx ACCEL-VM500: Medical Augmented Reality AI Image Computing Platform

- Support 9th Generation i7 and Xeon Processor and the latest GPU card including RTX A4000 and A5000
- Support multiple video input including DVI, SDI or HDMI in order to capture video in to do AI analysis

Onyx MD116(i) Mobile Medical Tablet

- Intel® Apollo Lake processor / Sky Lake U processor / Kaby lake U processor
- Dual hot-swappable batteries for 24/7 operation
- Dual smart card readers for multiple-care workflow
- IP54 certified & 3 feet drop resistant

Smart-LINKx Biotech Co., Ltd.

Navident

- Visible implant safety: AI+AR augmented reality real-time perspective of the patient's mouth
- Comfortable and fast recovery: minimally invasive dynamic surgery wounds heal faster and feel less pain
- Precise surgery: Israeli defense black technology Micron Tracker

ScopEye

- ScopEye can be wirelessly connected with the display output of Da Vinci surgical equipment, fluoroscopy X-ray platform, ultrasound, laparoscopy, endoscope, dental intraoral scanner, microscope... and other medical equipment!

MetaScope

- MetaScope, a head-up display design of the recordable expansion smart glasses, helps reduce largely the fatigue of the surgeon's eyes, hands, shoulders and neck. It can expand surgical field view by installation of extended-view cameras on the surgical light or photographic stand.

Insight Medical Solutions Inc.

Wired magnetic-assisted capsule endoscope-UGI

Wired magnetic-assisted capsule endoscope-UGI (MACE-UGI) is a medical device designed to observe the upper digestive tract (esophagus, stomach, duodenum) and provides responsive real-time video and control is achieved through a magnetic field navigator (MFN).

Cypress Technology Co.,Ltd.

MED-VPR-6110 Digital Video Recorder

- 3.5 build-in display for preview/playback/navigation
- Auto-Signal detection and auto-resolution setting
- Safe record to internal HDD, external USB devices and Network drive simultaneously
- Compliance with medical standards

MED-AS402 Medical Video Recorder

- 4K@60 UHD+ video are able to be recorded in build in hard disk when playing the video from medical devices
- Recording video format of H.264 & H.265 to offer high quality video recording with optimized storage file capacity
- Video source preview supported

MED-VPR-8430 Multi-viewer with Streaming Solution and Stand-alone PC-based System for Video Capturing

- UHD+ 4K@60Hz video from medical devices can be recorded to the builtin SSD storage (downscaled to 1080p@60Hz)
- Records using the H.264 & H.265 codecs to offer the highest quality video recording possible while maintaining optimal file sizes

YUAN High-Tech Development Co., Ltd.

AI Vision Workstation

Using AI deep learning technology to integrate image recognition to assist doctors in diagnosis

4K SDVoE Cross Converter Product Lines

A full product line of 4K60 444 distortion-free low latency in SDVoE, providing a complete 10Gb medical image management solution.
SDVoE dedicated imaging central control software provides one-stop medical imaging services.

UPro Medical Inc.

4K Ultra Medical ICG Endoscopy System

- 4K@60fps video ultra-high-definition output, realistic presentation of surgical images, smooth and not stuck.
- Using Japanese high-end 1/2.8 SONY chip, super large, delicate color, perfect detail actual output
- USB camera resolution up to 3840×2160px

1080P Full-HD Medical ICG Endoscopy System

- 1080P@60fps Full-HD video ultra-high-definition output, realistic presentation of surgical images, smooth and not stuck.
- Using Japanese high-end 1/2.8 SONY chip, super large, delicate color, perfect detail actual output
- USB camera resolution up to 1920*1080px

4K Medical Live Video Recorder

- Support video input resolution up to 4K@60/50fps and compatible with 1080P, 720P
- Video, Audio & Control transmission can support Unicast and Multicast mode
- Provide multiplex transmission protocols: RTSP, RTP, RTMP and FLV

Wisdom Gathering Consulting Co., Ltd.

WGC VSI 3D Medical Imaging Solution

- Medical image files such as CT、MRI、ANGIO-CT、CBCT、SPECT、PETCT etc., can be directly converted into 3D images
- The 3D medical imaging solution can directly perform enhancement, resizing, natural imaging or rendering.
- Support long-distance collaboration through the 3D medical imaging solution.

AVer Information Inc.

AVer MD330U Medical Grade PTZ Camera

- Revolutionary Removable Head Design
- Unparalleled 30X Optical Zoom Capability, Outstanding 4K Resolution
- AI Acoustics: Speaker & Microphone Integration
- Medical Grade Certification
- Solutions for Live Surgery Broadcast, Telemedicine, and Tele-ICU

AVer MD330UI Medical Grade PTZ Camera

- Revolutionary Removable Head Design
- Unparalleled 30X Optical Zoom Capability, Outstanding 4K Resolution
- AI Acoustics: Speaker & Microphone Integration
- Medical Grade Certification
- Infrared Night View for Live Surgery Broadcast, Telemedicine, and Tele-ICU

AVer PTZ330W Professional PTZ Camera

- 30X Optical Zoom, Full HD Resolution
- Up to 255 Preset Locations, Stable Motion Control
- Seamless Tracking Between Your Preset Zones · Fit Your FOV in Seconds
- Solutions for Live Surgery Broadcast, Telemedicine, and Tele-ICU

AREC Inc.

ARECare Intercom Solution

- Through the video communication features, ARECare Intercom Solution can bring fast and effective communication for surgical interpretation.
- Viewer mode supports Android/iOS apps for mobile devices. Make communication more convenient!

ARECare Telemedicine Solution

- Achieve coexistence of virtual and real medical care.
- Supports one-on-one video conferencing, screen switching, annotation, recording, automatic backup, and remote management features.

ARECare Recording and Streaming Solution

- LS-860M All-in-One Media Station, the AV-over-IP recording and streaming device, supports up to 4 1080p video sources and multiple audio sources capturing, mixing, switching, recording, live streaming, remote management and scheduling control.

China Medical University & Healthcare System

New cell drug company on all therapies(Ever Supreme Bio Technology)

- Cell Therapy CMO :
- Ever Supreme offers the cell products (ADCV \ DC-CIK \ CIK \ GDT and BMSC) needed by medical institution under the Regulations Governing Specific Cellular Therapeutic Technology of 2018 promulgated by Taiwan FDA.

Remote AMI Smart Ambulance Platform

- This product was launched in the emergency department of China Medical University Hospital in July 2020. So far, it has passed tens of thousands of clinical ECG tests, and its accuracy is as high as 99.7%.

KOWA OPTICS CORP.

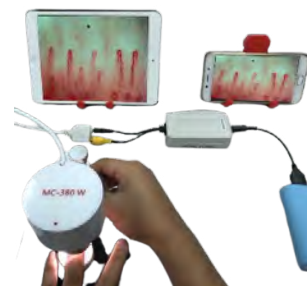

HD-01 High Definition Skin / Hair / Iris / Microcirculation Checker

- UVC camera, plug & play, no USB Driver needed, easy to operate
- High clarity 640 x 480 VGA mode or 1280x720 HD mode switchable
- Various lenses changeable for skin/hair/acne/iris/microcirculation analysis; Support skin Sebum/ Moisture/Elasticity/ Pigment analysis

HD-01HDMI High Definition HDMI/USB BEAUTY SCOPE

- It provides a single / 2 splits (left & right) / 4 quad images freeze on the HDMI TV monitor (full screen).
- HD-01HDMI Control unit with High Definition camera, Dual output: (1) HDMI output to HDMI TV; (2) USB output to PC / laptop, plug & use, no USB driver needed.

MC-380W Portable WIFI Microcirculation Scopea

- WIFI wireless transmission, use your mobile devices to be the monitor, easy to observe & compare the images.
- Non-invade analysis process
- China utility patent No. ZL201621402183.0, Taiwan new patent: 106TP088476
- Only with weight 550g, very compact

Jhong Jheng Spine & Orthopedic Hospital

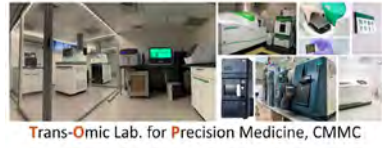

Orthopedic \ Spine

- Orthopedic professional medical treatment: minimally invasive joint reconstruction surgery, lumbar joint treatment and surgery, etc.
- Spine professional medical treatment: minimally invasive spine surgery, cervical neuropathy, dislocation, etc.
- AI technology: ROSA KNEE robotic arm

Chi Mei Medical Center

Full Information

ELISA 檢測試劑盒/ELISA Kit	快速檢測試片組/Rapid Strip Test
<ul style="list-style-type: none"> ✓ 檢測時間：3小時 ✓ 提供準確定量的結果之定性檢測 ✓ 易於臨床實驗室操作 ✓ 適合高通量檢測 ✓ 驗證檢體數：1768個檢液 ✓ 精準度：83~88% 	<ul style="list-style-type: none"> ✓ 檢測時間：30分鐘 ✓ 提供定性檢測結果 ✓ 易於單一使用操作 ✓ 適合定點現場檢驗(POCT) ✓ 驗證檢體數：603個檢液 ✓ 精準度：79~85%

The comprehensive genomic profiling for liquid biopsy

Effective and robust reporting results are enabled by the use of blood samples to eliminate the time spent retrieving tissue samples. With high flexibility and multiplexed solutions being available to analyze blood and tissue samples, timely 523 genomic profiling results facilitate diagnostic assistance and precision medicine for the physicians.

Non-invasive Clinical Test for Cancer Biomarker

Two product platforms for different scenario. Saliva as specimen. Non-invasive test. Aid in diagnosis of oral cancer. Benefit cancer prevention.

Artificial intelligence (AI) prediction system

The AI model was then integrated with our HIS, it could help clinicians and infertile couples choose suitable number of embryos during transfer, decrease multiple pregnancy, and sustain optimal pregnancy rate.

Chang Gung Medical Foundation

Full Information

Smartphone-Based, Deep Learning Prediction of Eyelid Height

The examiner can check these measurements anywhere and at any time, which facilitates data collection.

U-Dr. Telemedicine System

CGM U-Dr Telemedicine provides two product types: trolley and mobile suitcase. The features of product: Provide general outpatient services that can support multi-point connection remote consultation service applications. Negotiations on the interfacing services of multiple medical instruments and equipment.

U-ADC: Smart Automatic Dispensing Cabinet & Intelligent Medicine Prescription Table

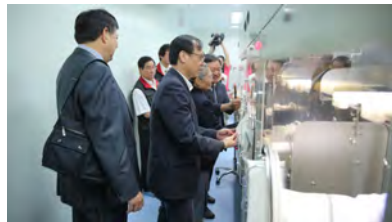

The benefit for Using ADC & intelligent medicine prescription table

- Reduce the possibility of medication errors, improve patient medication safety
- Eliminate waiting time
- Electronic Management of drug, Real-time inventory information and management

Hualien Tzu Chi Medical Center

Full Information

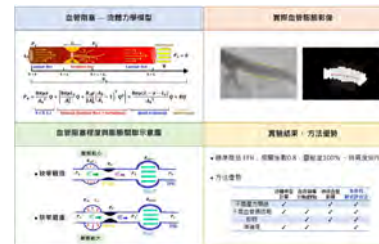

Development and manufacture of cell preparations

At present, our center has successfully tutored some biotechnology companies. Recently, we have also completed the process of manufacturing and cryopreservation of olfactory stem cells commissioned by a biotechnology company, and is currently assisting the company in its formal commercial operation.

MacKay Memorial Hospital

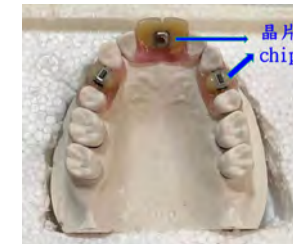

Full Information

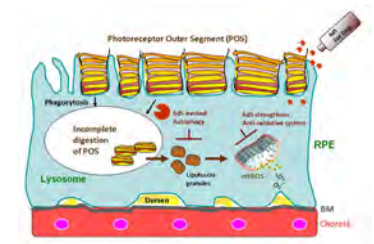

METHOD FOR ESTIMATING DEGREE OF ARTERIAL OCCLUSION

This method does not require invasive pressure wires and vasodilators. It instantly injects the contrast agent into the original coronary angiography to image the anterior blood vessels at the vascular occlusion site. It can reduce the risk of surgery and related medical expenses.

TEETH-OPERATED MOUTH MOUSE AND USES THEREOF

- This teeth-operated mouth mouse or tooth mouse, can be used to control computer-associated apparatus
- This tooth mouse embodies Technology derives from humanity with empathy for human needs.

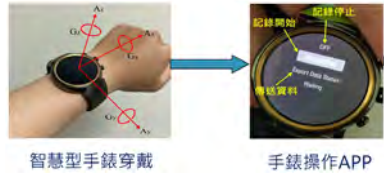

SHORT SYNTHETIC PEPTIDE AND THEIR USES FOR TREATING RETINAL DEGENERATIVE DISEASES AND/OR TISSUE INJURIES

- Fulfill unmet medical need
- First-in-Class drug with clear MOA
- Low Toxicity
- Pre-Clinical animal model close to human pathology
- Display excellent therapeutic efficacy on dry AMD animals

Kaohsiung Medical University Chung-Ho Memorial Hospital

Full Information

智慧型手錶穿戴 手錶操作APP

Diagnosis of Attention-Deficit/Hyperactivity Disorder by Smart Watch (or Treatment Chair)

Diagnosis of Attention-Deficit/Hyperactivity Disorder by Smart Watch (or Treatment Chair) - Scientific and objective diagnosis and assessment. The smart watch can be used to solve the problems of the traditional diagnosis of ADHD based on the behavior rating scales, which is over-subjective, and inaccurate.

Inflatable Vaginal Stanchion Pessary/Vaginal Surgery Speculum

Inflatable Vaginal Stanchion Pessary
 · Three-dimensional trapezoid: The structure is narrow outside and wide inside which is designed by women's vaginal anatomy.
 · Balloon: The silicone balloon is inflatable and suitable for most women.

neuECG

· Non-invasive detection, anti-execution.
 · The test results of ECG and skin sympathetic nerve activity assessment can be provided at the same time.
 · Measurement of skin sympathetic nerve activity can be applied in patients with arrhythmia and acute coronary heart disease.

Military Health System

Full Information

A nucleic acid based lateral flow device for specific human BK polyomavirus (hBKPyV) detection from ESRD urines and contaminated sewage samples

The detection limit applying BKPyV p34-2 plasmids is 107 copies/mL without any cross reaction. This device provides a promising potential for BKPyV detection in sewage and clinical samples.

Mixed reality education and training system

· The virtual and accurate data are superimposed, and the training content can be experienced anytime and anywhere.
 · Object orientation enables users to more accurately perform technical simulations.

National Cheng Kung University Hospital

Full Information

AI Medical Platform

The QOCA® AIM is implemented in AI Medical Platform. With graphical user interface (GUI), users can intuitively use QOCA® AIM without coding experience to conduct machine learning models and apply it to your research and clinical setting.

Feel a sense of relieve: E-manager for cancer care on Breast

· Using friendly interface to provide information and support based on women's needs and evidence.
 · Using digital technology to provide breast cancer care and emphasizing individualization and continuity.

Biodegradable Magnesium Suture Anchor

· Biodegradable material: avoid secondary surgery and reduce infection risk.
 · Good imaging quality: reduce metal artifacts and improve image reliability.
 · Minimally invasive: apply in arthroscopic and promote postoperative recovery.

Yang Ming Chiao Tung University and Hospital

Full Information

AI-Based Home Sleep Evaluation Platform

From the perspective of intelligent design, this product uses technology to assist patients in assessing insomnia symptoms, and is modularized as a wireless wearable, which really improves the patient's medical experience and the comfort and convenience of measuring physiological values.

Tungs' Taichung MetroHarbor Hospital

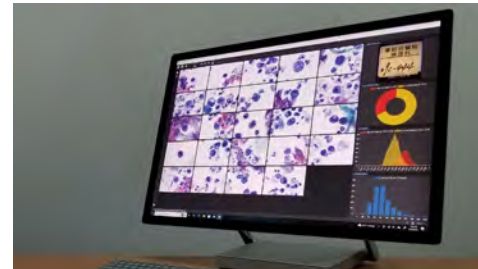

Full Information

Axumin Injection

Axumin® (fluciclovine F 18) PET/CT scan can provide better detection can lead to more personalized treatment.

- If you have recurrent prostate cancer, your doctor needs to get more accurate information about the location of your disease.
- An Axumin scan may help.

AIxURO, Artificial Intelligent software in urine cytology for surveillance of bladder cancer.

AI software classifies atypical UC candidate cells with risk stratification and effectively assists cytopathologists in reporting urine cytology.

Taipei Medical University and healthcare system

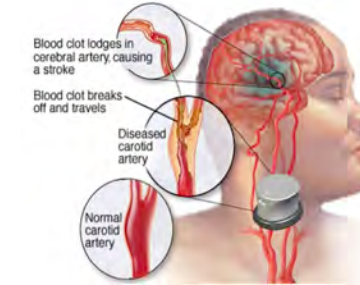

Full Information

A new option for minimal invasive spine surgery: Endoscopic Spine Surgery

Advantages of endoscopic fusion surgery over traditional forms of surgery, or even minimal invasive fusion surgery, include the ability of the endoscope to visualize different angles under higher levels of magnification, ensuring the complete removal of the intervertebral disc and endplate preparation for the subsequent fusion procedure.

Abovecare

Features of this system:

- Portable, non-invasive and easy-to-operate device
- Optimized machine learning system
- Prevention and detection of fistula and arterial blockage
- Quick detection - use Flow-EZ to detect results in 20 seconds.

Insightec ExAblate Neuro

- non-invasive treatment
- immediate improvement

E-Da Health Care Group

Full Information

The Platform for Cell Manufacturing and Storage

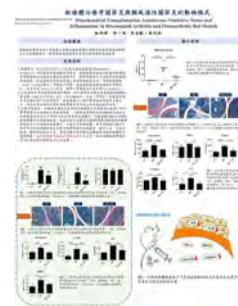

- To follow the GTP regulations for planning and control
- To make the procedures of cell production to meet the high specification for international standards
- To obtain the certification of ISO 17025 for quality control inspections of cells and reagents.

Sterility Test

Sterility Test for the following materials:

- Medium or Reagent for cell culture
- Cell or Tissue stored solution or freeze media
- Drug or reagent
- Tissues Culture solution or Conditioned Medium

Mitochondrial Transplantation Ameliorates Oxidative Stress and Inflammation in Rheumatoid Arthritis and Osteoarthritis Rat Models

We used exogenous mitochondria isolated from a healthy donor or cells to ameliorates oxidative stress and inflammation in rheumatoid arthritis and osteoarthritis rat models.

Fu Jen Catholic University

Full Information

3D printed medical high-fidelity bronchial tree model

- Using 3D printing to make a high-reality and high-fidelity model.
- When the bronchoscope enters, people will see the vivid bronchial tube and feel like in real world.
- Bronchial branches can be disassembled for bronchoscopy slicing practice, and specific branches can be replaced after completion.

Suction training simulator

- The real anatomical structure
- Can use simulated sputum
- Detachable design

Kaohsiung Medical University

Extracorporeal Optical Equipment of Precise Screw Positioning
 Inventor: Lin Chen-Hsi, Sun Cheng-Lian, Sun Hsiung-Wang, Mao Long-Hsi, Liu Sheng-Wang, Hsu Chi-Chen, Yu Chang-Lian

Technical Introduction
 To provide orthopedic surgeons with a fast, safe, and precise targeting device for screw placement by using electro-optical engineering to decrease radiation exposure of fluoroscopy for both the surgeons and the patients.

Patent
 中華民國 110年07月01日公告 第 211111 號
 中華民國 110年07月01日公告 第 211112 號
 中華民國 110年07月01日公告 第 211113 號
 中華民國 110年07月01日公告 第 211114 號

 中華民國 110年07月01日公告 第 211117 號
 中華民國 110年07月01日公告 第 211118 號

Extracorporeal Optical Equipment of Precise Screw Positioning

- Optoelectronic Engineering Technology.
- Lower radiation exposure and higher safety.
- Higher precision to find the screw hole.
- Reduce the screw misplacement.
- Reduce the surgery time.

使用 3D 設計軟體 設計 3D 生物陶瓷模型
 3D 生物陶瓷模型
 3D 生物陶瓷模型
 3D 生物陶瓷模型

Innovative additive manufacturing ceramic printing technology based on photo-cured & negative thermo-responsive ceramic slurry system

- Better mechanical properties
- Promote osteointegration efficiency
- Well biocompatibility
- Standardized and customized
- Similar to clinical commercial material

HA-modified Hydrogel for Articular Cartilage Defect Repair
 Inventor: Mei-Ling Ho, An-Bin Chang, Cheng-Hsuan Chen, Hsi-Ting Chen, Hsin-Cheng Wu, Hsi-Bing Chang

Technical Introduction
 The HA-modified hydrogels can stimulate the bone marrow cells to self-repair cartilage defects without extra-seeding cells. In the future clinical application, the HA-modified hydrogel can be used to treat cartilage defects combined use with intervention of stem cells or chondrocytes for large defect (subject).

Patent
 中華民國 110年07月01日公告 第 211119 號
 中華民國 110年07月01日公告 第 211120 號
 中華民國 110年07月01日公告 第 211121 號

Novel cross-linked hyaluronan hydrogels for regenerating articular cartilage defect by enhancing stem cell chondrogenesis

The HA-modified hydrogels can stimulate the bone marrow cells in situ to regenerate cartilage without extra-implanting cells.

Industrial Technology Research Institute

In Situ Projection System for Fluorescence Surgery (LymphSharp)

- The optical axis of the camera and projector are perfectly aligned, so any movements or shape changes of the organ are tracked in real-time.
- NIR LEDs combined with White LEDs provide fluorescent excitation and support surgical lighting.

Dual Functional Reinforcement & Anti-Leakage Bioabsorbable Sheet

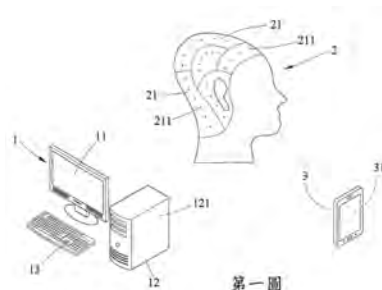

ITRI has developed a novel UV-assisted adhesive and bioabsorbable sheet with dual functions of anti-adhesion and anti-leakage properties for use in gastrointestinal surgeries to prevent the undesirable development of the adhesion tissue and the obstruction in the intestine.

Ex vivo Mass Production Technology of Adipose Stem Cells

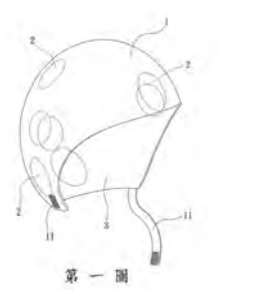

- The SFM for MSCs is a high-efficiency proliferation medium with chemically defined formula and seeding with low cell density.
- This technology can obtain a large amount of MSCs for cell therapy in a short time.

NATIONAL TAICHUNG UNIVERSITY OF SCIENCE AND TECHNOLOGY

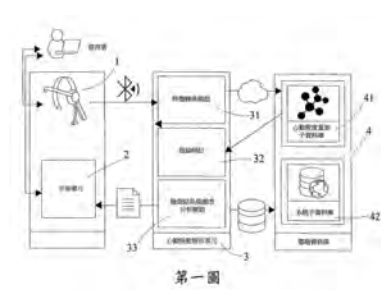

Teaching guide device for scalp pressure relief massage

- A teaching and guiding device for scalp pressure-relieving massage.
- Inclusive of a computer-control system, a head instrument and at least one mobile device
- Find Pressure-relieving acupoints and suitable essential oils through the database.

Head-mounted phototherapy massage device

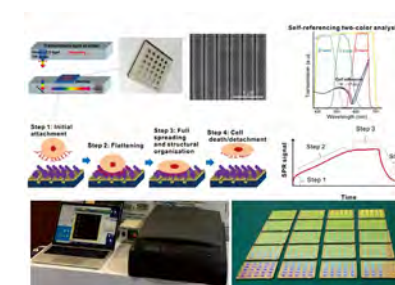

- A phototherapy module composed of a plurality of RGB LED light sources.
- This head wearable device can correspond to the acupoints on the head for phototherapy.
- Effectively relieve fatigue on the head and body parts.

Desiring degree evaluation system constructed according to brain wave recognition

- It includes a brain wave acquisition unit, a cardiac index evaluation unit and a cloud database.
- The brain wave acquisition unit is connected to an interface unit to transmit the brain wave signal to the cardiac index evaluation unit for evaluation.

Biomedical Translation Research Center

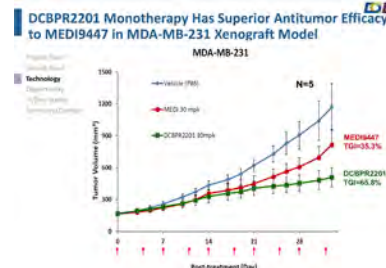

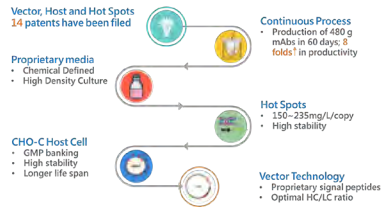

Development and Applications of Portable, Low-Cost, and High-Throughput Nanostructure-Based Surface Plasmon Resonance Imaging Platforms

We present a low-cost, portable nanostructure-based surface plasmon resonance imaging (SPRI) platform, for high-throughput sensing applications, such as screening anti-metastasis drugs and direct detection of SARS-CoV-2 virus-like particles.

DEVELOPMENT CENTER FOR BIOTECHNOLOGY

Full Information

High Yield CHO-C Expression System

CHO is the preferred host for the production of biopharmaceutics

- Able to produce complex therapeutics
- Manufacturing adaptability
- 94 % of FDA approved mAbs are made from CHO cells (2017~2020)
- The global market for mAbs is expected to be USD 350 billion by 2027.

Development of KRAS-degrader drugs against cancer

KRAS PROTAC lead drugs have been developed with inhibitory effect in cells expressing KRAS G12C, G12D, G12V and observed significant protein degradation and >60% tumor in xenograft animal model of KRASG12V non-small cell lung cancer NCI-H441 Inhibition rate.

Development of Anti-CD73 Antibody for Cancer Immunotherapy

- Unique CDR sequences and epitopes
- Long-lasting inhibition of CD73 enzyme activity
- Better capability of reversing the AMP attenuated CD4+ T cell proliferation
- Mono-therapy shows better anti-tumor activity than benchmark MEDI9447 in TNBC xenograft model

National Health Research Institutes

Full Information

CCCH-Zinc finger protein expression enhances higher production levels of Japanese encephalitis virus (JEV) and influenza A virus (IAV): in the development and utilization of cell-culture based vaccine

To provide higher viral yield and lower cost-effectiveness in the production of live-attenuated and inactivated vaccines for Japanese encephalitis virus (JEV) and influenza A virus (IAV).

Instrument Service and Training Courses

- Professional technicians
- Comprehensive services
- One-stop overall analysis
- International level quality
- Professional team service

National Applied Research Laboratories

Full Information

Biomedicine - Customized Bioinformatics Analysis Process R&D Services

- Large-scale genome analysis and computing is provided for whole genome comparison and correlation analysis, genotype identification, and biopsy identification.
- Provides stable analysis process services capable of analyzing thousands of entries each day.

Joint Commission of Taiwan

Full Information

Health Smart Taiwan (HST)

HST provides integrated services for healthcare institutions to achieve digital transformation, shaping a quality, safe, and efficient health care environment.

- Successful stories- find the best solution to digital health
- On-site experience- Come explore the digital health

Disease Specific Care Certification Program

- Benefit from DSC:
- Achieve cross-disciplinary team integration.
 - Improve healthcare quality.
 - Demonstrate the features of care.
 - Cost-effectiveness.
 - Set benchmarks for the disease care.

Health Check-up Program Certification

- Benefit from certification
- Team's integration needs.
 - Strengthen the interdisciplinary cooperation mechanism.
 - Consistent inspection process and standard of procedure.
 - Improve customer satisfaction.

Acer Medical Inc.

VeriSee DR

- The first ophthalmic AI Software as a Medical Device (SaMD) approved by Taiwan FDA
- Validated through a rigorous clinical trial
- No ophthalmologist required
- Real-time detection of DR lesions
- Quick screening for high-risk cases

VeriSee AMD

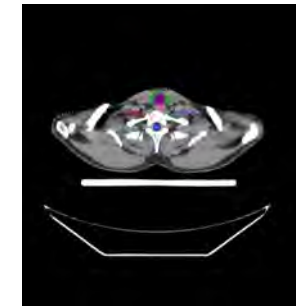

- The first AI Software as a Medical Device (SaMD) for AMD approved by Taiwan FDA
- Indicated for adults over 50 years old
- No ophthalmologist required
- Quick screening for high-risk cases

EVERFORTUNE.AI CO., LTD

"EFAI" Computer-Aided Bone Age Diagnosis System

- With AI, the device helps improve the efficiency by 93% when compared against using the GP Atlas
- Bone age is an important biomarker in determining a patients growth status .
- It normally takes around 15 minutes to assess a bone age, this can be reduced to less than a second with AI.

"EFAI" RTSuite CT HN-Segmentation System

- We have initiated several Auto Contouring projects starting from the auto-contouring of the head and neck region and moving down to the chest, abdomen, pelvic and other organs incrementally to improve the workflow in radiation therapy treatment planning.

TaiHao Medical Inc

BU-CAD Decision Support System (BU-CAD DS)

- Efficient Reviewing Process
- Diagnostic Assist System
- BI-RADS Lexicon
- Rapid Reporting System

3D BR-Viewer for Automated Breast Ultrasound

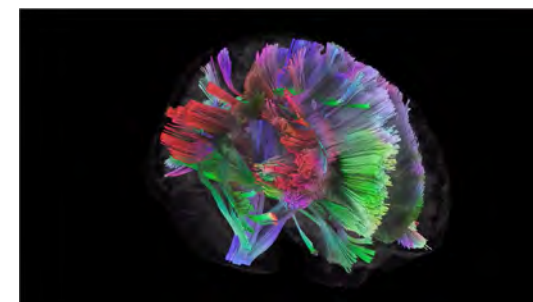

- ABUS Images Viewer
- Computer-aided Detection
- 3D Manipulation
- Marker Annotation
- BI-RADS Lexicon
- Electronic Diagnostic Report
- Plug-in Viewer in WorkstationOneTM

BR-FHUS Smart System

- BR-FHUS Navigation
 - Compatible with existing handheld ultrasound
 - Standardized scanning process
 - Scanning quality assurance
 - Real-time suspicious finding alert
- BR-FHUS Viewer
 - Efficient reviewing process

AcroViz

Axonal Brain Age examination service

- Obtain the USFDA 510(k) certificate and TFDA permit license.
- Applies diffusion MRI and Machine Learning techniques to analyze neuroimaging.
- Evaluate the robustness of whole brain fiber tracts, as well as cognitive function networks.

ASUSTek Computer Inc.

ASUS EndoAim AI Endoscopy System

- The world fastest 60 frames per second in AI polyp detection speed
- Assisting physicians to improve the quality of colonoscopy and increase the detection rate of polyps
- Accurate polyp classification to minimize unnecessary biopsies

ASUS Portable Ultrasound Solution LU700 series

- Five probes types including Linear array, Convex array, Microconvex array, Phased Array and Endocavity
- Five image modes including black and white, color, M mode (Motion Mode), PD mode (Power Doppler) and PW mode (Pulsed Wave)
- Up to five hours of long battery life

ASUS VivoWatch 5 Wearable Health Tracker

- ASUS in-house R&D to deliver 100% technical capacity, providing customization for customer needs
- Exclusive two sets of medical-grade ECG and PPG dual sensors to read more immediate and accurate signal from fingertips
- Provides 6 major health data

Alpha Intelligence Manifolds, Inc.

DeepXray AI OA assisted diagnosis system

- Radiological fully-automated image processing software
- Digital Biomarker
- AI labeling
- Personalized report

ASKiN Co., Ltd.

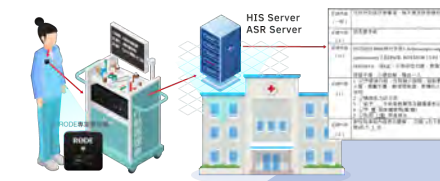

AI Assessment System

- Develop and Layout Algorithms for Medical Imaging
- Build Models for Diagnosing, Monitoring, and Identifying Chronic Diseases
- Forecast and Analyse Health Condition for Individual and Group

Telemedicine - ASKiN Online Doctor Consultation Platform

- Establish and Integrate Digital Health Platform
- Provide Medical Support for Overseas Chinese and for Those on Business Trip
- Extend Application of Medical Field on Telemedicine Devices

BRONCI

Automatic speech recognition system

- Real-time Automatic speech recognition
- Chinese with English mix speech recognition in records
- Support nursing records, pharmacy, and dentistry

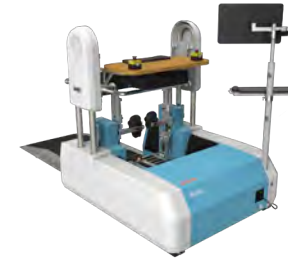

Auden Techno Corp.

Sim4Life: Simulation Software for targeted life science applications

- A comprehensive set of computable human phantoms (ViP& ViZoo).
- iSEG, an integrated segmentation (including pre- and postprocessing) toolbox for the efficient, fast, and flexible generation of anatomical models from various types of imaging data.

Hiwin Technologies Corp.

HIWIN Robotic Gait Training System MRG-P100

- HIWIN Robotic Gait Training System provides intensive trainings for patients and reduce therapists' burden.
- 3-point support design (knee, abdomen, pelvis): it enables patients to undergo gait training while standing at the early stage of rehabilitation.

HIWIN Robotic Endoscope Holder MTG-H100

- Stable image is under your control
- Reliable surgical assistant
- Steady views
- Precision positioning
- Multiple control ways
- Workflow & environment compatibility
- Quick setup and mobility

Robotic Gait Training System

- Three gait patterns Choose the most suitable gait pattern according to training goal : Flat ellipse - Weight Shifting, Ellipse
- Hip Flexion, Walk - Knee Extension
- Smart detection and real-time feedback
- Determine the intention of the action
- Encourage motivation and engagement

Point Robotics MedTech Inc.

Kinguide Robotic-Assisted Surgical System

- Parallel Manipulator – Robotics Alignment for High-Level Precision
- Navigation System – Accurate Trajectories Guidance
- Automatic Safety Mechanism – Reliable Control System
- Interchange modules – Indication-Specific Versatility

Kinguide Agile Hybrid Navigation System

- High accuracy (the tolerance < 0.5 mm)
- Portable and convenient setup within 10 minutes
- Compatible with a variety of 3D C-arms
- Flash registration within 15 seconds

EPED Inc.

"EPROB" Robotic Arm Surgical System

EPROB Robotic Arm is an advanced surgical system that performs robotic-assisted minimally invasive surgery. The arm is controlled through precise coordinates and parameters settled through a navigation system from where the surgeon has full manageability of the instruments.

RETINA Stereotactic Surgery Navigation System

- Minimally Invasive Surgery
- Precise Optical Space Location Technology
- High Compatibility
- High Price-performance Value

IRIS 4D Dental Surgery Navigation System

- Total visibility of surgical instruments at all times for both doctors and patients' safety and comfort.
- Real-time monitoring of surgical instrumentation throughout the whole process to assure surgical outcomes as originally planned.
- Minimally invasive surgery

Leadtek Research Inc.

Leadtek Wireless Fingertip Pulse Oximeter

- It is operated by a single battery, built-in anti-shake algorithm.
- Taiwan TFDA approval, the US FDA 510K clearance and Japan MHLW approval.
- Light-weight, power-saving design and APP connection function.

H2 Plus Wearable ECG Recorder

- TFDA No.: 006790.
- The main functions include ECG recording, irregular heartbeat, event recording, heart rate variability, fatigue index, circulation index, body pressure index, lifestyle tracking and AI notification feedback.
- APP available.

amor physical and mental health management platform

- Positioning with physical and mental healthcare including life stress, ECG, heart sound and blood glucose, etc.
- Works with wearable devices, can provide complete AI risk prediction, individual trends and related suggestions via APP.

Huijia Health Life Technology Co., Ltd.

Non-invasive Fiber Optic Physiological monitoring

This specific pattern generated by different actions can be used as identification, and CNN & RNN deep training is learned to infer physiological signals and continuous cough and set a warning for abnormal conditions. Applicable to home, nursing homes and hospital.

EVERTECH

Holter ECG Heartnote

- 30mm x 100mm , 5mm thin, and only 12g in weight
- Easy-to-wear cordless device with adhesive bandage
- Up to 7 days of on-going measurement
- waterproof performance
- We offer a highly accessible holder ECG monitoring service

COMDEK industrial corporation

Muti-function Patient Monitor

Multifunctional Patient Monitor (selected parameters): MD-900 (Desktop) and MD-800 (Portable) measure as below

- SpO2, NIBP
- Heartbeat, (EKG) Electrocardiogram
- Respiration rate, EtCO2
- 2ch-Temperature

Portable Capnography

EtCO2 is used to detect the concentration of capnography in the breath to determine vital signs. It is often used as essential equipment for emergency medical treatment and long-term monitoring.

EKG electrodes, IBP sets, surgical skin marker

- EKG electrode is able used during the EKG waveform requires.
- Surgical skin markers are able used before surgery.
- IBP set is able used during surgery.

BiomateSWISS

Dental Implant

Our PDL®(Precision Dimension Laser) surface treatment features high oxidized surface and unique microchannel with micro-nano complex 3D pore, guiding effectively the bone cells to adhere, proliferate and differentiate to accelerate the osseointegration.

Digital Implant Solution

A simplified process
Digital implant solution offers clinics to decrease treatment time and improve the overall patient experience through greater involvement with the digital implant workflows.
Product: Implant System, Surgical Guide/Kit, CBCT, Collagen Bone Graft, etc.

Digital Solution

- Perfect fit between implant-abutment-gum.
- Solving problems regarding angle, location, and anatomy.
- A broad range of material options.
- Customized demand.
- Aesthetical superiority

HippoScreen Neurotech Corp. (HNC)

Stress EEG Assessment System

- High accuracy, the AI algorithm can achieve above 80% accuracy with clinical data evaluation.
- High usability, it only requires 8 channels of EEG data and thus the system setup is very simple.
- Fast measurement, it only takes 2 mins from capturing

Scivision Biotech Inc.

HYAJOINT Plus Synovial Fluid Supplement

- Long-lasting relief of symptomatic knee OA pain for up to 6 months
- Carefully controlled cross-linking
- High molecular weight
- Non-animal sourced
- Prolonged degradation time

HYADERMIS Facial Dermal Implant

- High safety performance
- Strong structural support
- Lasting effect
- Excellent viscosity
- High proportion of active ingredient
- Superior degradation resistance

PROTAHERE Absorbable Adhesion Barrier

- Good biocompatibility
- Prevents or reduces adhesion formation
- Quick and easy application

Wellell Inc.

Optima Prone

Simplify Head Repositioning
Mechanically supporting shoulder lifts while creating space below the patient's chin decreases the caregiver's workload and risk of obstructing airway tubing, allowing the single-caregiver to perform head repositioning safely and efficiently.

Optima Turn

Pressure-relieving support surfaces that reduce the number of caregivers required for frequent lateral repositioning improve workplace safety, cost-efficiency and adherence to pressure ulcer prevention practices, and patient care quality and outcomes for all severity levels.

SleepWell

- Reduce Management Complexity
- Increase Communication Efficiency
- Improve Experience for Compliance
- Coach to Keep Motivated, Educated

ASIATIC FIBER CORPORATION

AFC Easy Care® Isolation Gown

- FDA Class 1 approval and CE certified
- Excellent water repellency & high hydrostatic pressure resistance
- Comfortable and lint-free
- Chemical resistance
- Anti-static, discharging static electricity in the human body and reducing the adhesion of bacteria

AFC Easy Care® POSITIONING BED PAD

- Hygiene: Adopts special medical fabric that are water absorbent, breathable and antibacterial, could also be used as bed pad to reduce the chance of bedsores
- Labor-saving: Designed with human ergonomics in mind, greatly reducing the stress on caretaker's muscles and enabling even female caretakers to effortlessly exert force and reposition patient easily.

Taiwan Resonant Waves Research Corp.

DM-ELF Diabetes Bioelectronic Medicine

- microcurrent electrical nerve stimulation (MENS)
- non-invasive and portable medical device
- natural/gentle electrical stimulation sensation
- different frequency combinations for different chronic disease treatments

Precious Mountain Ent. Corp.

Classic Vinyl Examination Gloves

- Excellent barrier protection
- Offers great tactile sensitivity.
- Puncture and tear resistance

Classic Nitrile Examination Gloves

- Excellent puncture resistance
- Flexibility & Durability
- Textured fingertips

Nitro-V Vinyl Synthetic Examination Gloves

- Special Hybrid Compound
- Ultra Soft & Tactile Sensitivity
- Higher Elastic And Elongation

KNH ENTERPRISE CO., LTD.

Full Information

KNH Trauma Dressing Bandage

- Easy application and one-hand operation.
- Consist of indicator strips for bandage changing indication, i.e. change bandage when the color on the strip has changed.
- With adjustable compression force for hemostasis, not easily adhesive to wound.

Hi-Clean Disinfecting Wipes for Medical Instrument

Compared to regular wipes on the market, Hi-Clean Medical Device Antiseptic Wipes absorb better and are softer. Advantages include: 1. Better texture; 2. Better absorption of medicated solutions; 3. Higher rate in releasing medicated solutions.

Carnation Medical Face Mask(Non-Sterile)

- CNS 14774 and CNS 14775 Certified
- Multi-layer compound structure
- Three-layer filtration
- Adjustable nose clip

SUM EASY ENTERPRISE CO., LTD.

Full Information

"SUM EASY" Medical mask (Non-sterile)

- Material:
- Outer Layer:NONWOVEN FABRIC
 - Middle Layer:MELT-BLOWN NONWOVEN FABRIC
 - Bottom Layer:PP STAPLE FIBRE NONWOVEN

"SUM EASY" 3D MEDICAL FACE MASK (NON-STERILE)

- Material:
- Outer Layer:NONWOVEN FABRIC
 - Middle Layer:MELT-BLOWN NONWOVEN FABRIC
 - Bottom Layer:PP STAPLE FIBRE NONWOVEN

"SUM EASY" 4D MEDICAL FACE MASK

- Material:
- Outer Layer:NONWOVEN FABRIC
 - Middle Layer:MELT-BLOWN NONWOVEN FABRIC
 - Bottom Layer:PP STAPLE FIBRE NONWOVEN

Modern Healthcare Corp.

Full Information

Diamond Shape Face Mask

- Designed to have more room for easier breathing by eliminating discomforts to the nose in exhaling.
- Keep the face mask at a distance from the lips and mouth, providing more room for easier speech.
- Face mask can be adjusted to any facial shape.

N95/FFP2 Respirator

- Comply with N95 standard, 0.1um submicron filtration efficiency (PFE) ≥ 95%, bacteria filtration efficiency (BFE) ≥ 99%.
- Foldable design, easy to wear with soft cushion inside the nose and with the best air density.
- Using hypoallergenic filter material, no latex.

Wound Dressings

- No sticky wound film, painless to tear
- Special punching rounded corner design, increase fixity, more compliant and not easy to fall off.
- Non-woven self-adhesive tape, breathable and comfortable, not easy to cause allergies.

Classico

Full Information

Classico Tailor Lab Coat

- CLASSICO most popular lab coat:
- The subtly slender silhouette, slightly shorter three-quarter length style, easily accessible inside breast pockets.
 - The fabric is now softer, more lightweight, more resistant to shrinkage, and more elastic than ever before.

CLASSICO • Cool Tech Scrub

- Highly breathable
- Added stain-resistant
- Light fabric
- Sashing durability that does not degrade even after repeated hospital washing
- Create a beautiful silhouette with a clean look

CLASSICO Royal Oxford Scrub

- Its most significant design point is the grosgrain tape on the chest pocket. It makes it possible for a neck strap to be passed through the tape portion, reducing the swinging of ID cards when hung from the neck.
- Special processing is applied to the yarn to express the feel of luxurious wool

MERRY ELECTRONICS CO.,LTD

Full Information

Passive AI Smart Fetal Status Sensing Technology

- Passive sensors
- Real-time monitoring
- Fetal status identification
- Handheld device

Merry MEMS Microphone

- Merry Provides MEMS Mic Total Solutions: MEMS/ ASIC Design, Microphone Packaging & Testing.
- Merry products cover analog and digital output, high SNR, high dynamic range and various sizes of MEMS MIC.

Wieson Technologies Co., Ltd.

Full Information

ECG Trunk Cable

- Customization design of 3-lead, 5 lead and 12 lead for the connection of equipment and leadwire cable.
- Compliant with EC-53.
- Compliant with ISO10993, using TPU material.

SpO2 Cables

- 7 pin customized shielded connector and 9 pin D-Sub female lockable connector
- Compliant with ISO10993, using TPU material.

Nurse call Cable

- Two types: overmolding and assembly
- Ergonomic design
- Customized cables
- Customized locking options

Diwei Industrial Co., Ltd.

Full Information

Hospital LCD Arm

With double Gas spring built-in system offers height and distance adjustment to most comfortable viewing

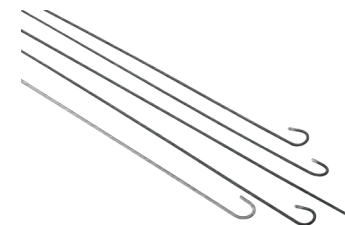

Healthcare Arm

With spring built-in system offers height and distance adjustment to most comfortable viewing

KT Medical Inc.

Full Information

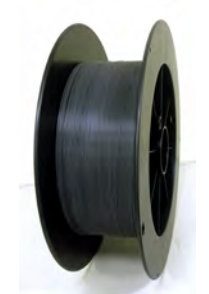

Guidewire

- Made in Taiwan
- ISO 13485 certificated Medical Device Manufacturer

PTFE Coated Wire

Coat PTFE on wire, with stainless steel or nitinol

Super-elastic Nitinol Wire

Super Elastic character, easy to keep shape, no bend

HEALTHCARE PLUS CO., LTD

Full Information

Liveo™ Pharma Silicone Tubing

- Made from biomedical grade tear resistant platinum-cured elastomer.
- FDA approve
- ISO 10993
- ISO Class 7 cleanroom

Liveo™ Silicone Adhesive - Soft Skin Adhesive

- Transparent before and after curing
- Platinum-catalyzed cure
- No cure by-products
- Solvent-less
- Two parts with similar viscosities and 1:1 mixing ratio
- Low viscosity before curing

Liveo™ Silicone Adhesive - Pressure Sensitive Adhesive for Medical Device

- Transparent
- Solvent based
- Low viscosity
- Non-sensitising
- Non-irritating
- Coatable using conventional tape coating equipment

Chi Feng Co., Ltd.

Full Information

CHI FENG

Negative Type Needle Free Connector

Needleless infusion devices develop and produce by Chifeng plastic, and acquired patents from multiple countries. The fitting part follows the ISO 80369-7 standards and completes the test, it can fit any infusion products who follow the ISO 80369-7 standards.

CHI FENG

Chemo Drug Preparation System, CSTD, Closed Male Luer

Our closed male luer and Gen2 connector evolved to a new level with little or no residue on the surface. We hope that the real intention of USP 797 will be able to protect pharmacists and healthcare professionals from occupational accidents caused by cancer drugs.

A-Tech System

Full Information

Coating and curing equipment

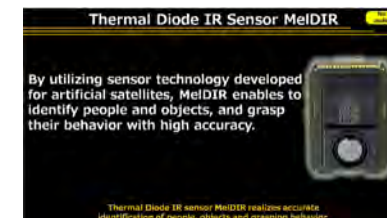

The Coating and Curing Systems from A-Tech System are production scale coating for curing medical device coatings.

- Increase productivity.
- Improve production quality.
- Improve activation and stability.

MITSUBISHI ELECTRIC TAIWAN CO.,LTD

Full Information

Mitsubishi Infrared Sensor

- Wide field of view and high-pixel resolution
- Superior images achieved with faster frame rate and optimized sensitivity correction
- User-support tools shorten development time

Application of MeDIR

- Product Features
- Wide field of view and high-pixel resolution
 - Superior images achieved with faster frame rate and optimized sensitivity correction
 - User-support tools shorten development time

User Support Tools

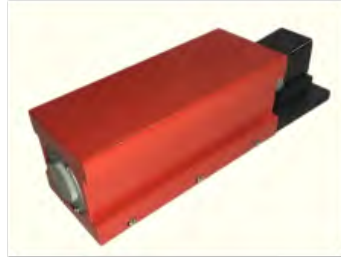

- Support tools provided to support product plan & design
- Product planning: Provide proposal of how to use
- Evaluation: High evaluation efficiency by evaluation Kit
- Product development: Support by reference code & design

ISUZU OPTICS CORP.

Ninox 640II - Cooled Visible SWIR InGaAs Camera

- Air Cooled VIS-SWIR technology
- 15µm x 15µm pixel pitch
- <18e- readout noise in high gain
- Ultra high intrascene dynamic range -62dB
- On-board intelligent 3 point NUC

[IOC-HS-0917] Pushbroom Hyperspectral Camera

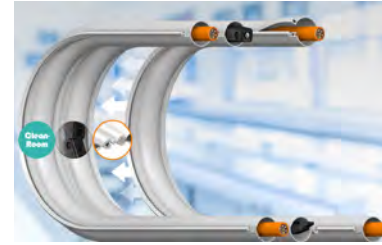

Isuzu Optics's own hyperspectral system, sensor can be customized according to customer's budget or needs.

Snapscan-VNIR

- Easy to operate, simple and fast to obtain hyperspectral images
- The camera is equipped with a high-speed scanning mechanism, the fastest acquisition speed is less than 1 sec
- Flexible application, C-mount interface can be connected to lens or microscope
- Image resolution up to 7Mpx

igus Taiwan Company Ltd.

e-skin® flat

e-skin flat single pods for cleanrooms can guide cables compactly and virtually particle-free in cleanrooms. In order to enable the users to install the energy chain even faster and exchange cables easily, also allow the user to define the number of chambers, combine them modularly and insert cables in seconds.

E2 mini

E2 mini are one-piece or two-piece energy chains, recommended for highly dynamic applications. igus also offers numerous accessories and mounting options. Upgrades to openable versions are available for many types. Different types are interchangeable and can also serve as replacements.

xiros® ball bearings

xiros polymer ball bearings to DIN 625 do not need any external lubrication, are corrosion-resistant (if glass or plastic balls are used) during operation, are extremely quiet. This makes them a cost-effective alternative to metal ball bearings.

Becker Pumps Taiwan Co. Ltd

ROTARY VANE VACUUM PUMPS OIL-LUBRICATED

- Vacuum supply to mobile or stationary extraction systems for fluids and secretions in hospital
- Fume extraction and suction for medical waste management systems

SMART MOTION CONTROL CO. LTD

T(orque)-Servo

A multi-functioned machine with 4 modes 1) position control, 2) torque control, 3) speed control and 4) push control. And three control methods: 1) I/O, 2) external pulse input (CW / CCW, PUL / DIR), 3) RS485/RS232 communication.

E-SERVO-PR

E-SERVO PR series are a high-performance 32bit ARM chip embedded Full Digital position control stepping driving unit. Drive Interface: Pulse I/F (Dir/Pulse, CW/CCW, A/B)

E-SERVO-ALL

E-SERVO ALL is an all-in-one Unit, for high-speed and high-precision drive of a stepping motor, E-SERVO ALL is a unique drive that adopts a new control scheme owing to an on-board high- performance 32 bit digital signal processor.

Tricore Corporation

Full Information

Massage Machine Brush Motor

DC motors are easy to operate and can be combined with various medical machines.

Insulin Syringe Motor Module

Coreless motors have advantages such as low energy loss, low noise, and fast response, which combine with planar gear box to provide high efficiency, quiet, and stability power for insulin syringe.

EnSense CO., LTD.

Full Information

Bartels Micropump

- Suitable for liquids and gases
- Low power consumption
- Small, lightweight, robust and reliable

KIDEN TRADING Ltd., Co.

Full Information

Markforged Mark Two professional 3D printer

- High-Strength Printing: By reinforcing your parts with composite fibre, achieves unparalleled strength, stiffness and durability.
- Printing materials other than Onyx, such as Carbon Fibre, Fibreglass, HSHT Fibreglass and Kevlar.

Hybrid LED & Infrared Light Source Handheld Color 3D Scanner

- Infrared & Structured Light Hybrid Light Source
- The Era of Scanning with Hair Acquisition
- Invisible Light 3D Scanning Experience
- Fine Details

3D Printing Service

KidenDesign provides a wide-range of 3D digitizing and 3D printing solutions including scanners, printers, material, design and manufacturing services, as well as a fully-established network cloud platform.

Chiun Mai Communication Systems, Inc.

Full Information

FusionAir Indoor Purification Systems

- Cloud management platform that monitors multiple air quality parameters and controls purifiers at different spaces in real-time
- Powerful purification capability to reduce the risk of bacterial and viral infection.

Fall & Bed Exit Detection Systems

- Millimeter wave radar sensor mounted on the ceiling to detect fall remotely. Provide around-the-clock protection without wearing anything.
- Applications include fall detection, bed exit alert, space occupancy detection, abnormal stay alert, breath detection, etc.

Medical Violence Prevention Systems

- Light-weighted Bluetooth button for medical personnel to attach to clothes or put in pocket.
- When the medical personnel perceives danger, he/she can press the button to send an SOS message with positioning information.

Welker Enterprise Co.,Ltd

Full Information

SL80S MOBILE UV STERILIZER

- 100%made in Taiwan
- Made from 304 stainless metal
- ODM PHILIPS' UV-GERMICIDLE LAMPS
- 1-year warranty
- Irradiation range can reach at 50 m²

SL118S MOBILE UV STERILIZER

- 100%made in Taiwan
- Made of 304 stainless metal
- ODM PHILIPS' UV-GERMICIDLE LAMPS
- 1-year warranty
- Irradiation range can reach at 82 m²

UVCC200 80W UVC Disinfection Chamber

- Just 1 minute to inactivate germ.
- The Disinfection Chamber have been verified by independent research institutions, and comes with door sensor and magnetic lock to avoid accidental opening of the door.

Kuang Tai Metal Industrial Co Ltd Kaohsiung Branch

Full Information

mild hyperbaric oxygen chamber

- Non-mechanical, using a humanized touch interface, simple and easy to use.
- Particular aluminum alloy structure, professional welding technology, lightweight but strong design.
- Sitting hyperbaric oxygen chamber, three-stage boosting speed selection.

Integrated Plasma Inc.

Full Information

AP-500A Dual Sterilization Air Purifier

- Manually 5-stages wind speed, or automatically adjust the wind speed according to the surrounding air quality to deliver the best quality of air.
- Automatic PM2.5 detection and removal, with a smiley face on the panel to indicate air quality, intuitive and convenient.

Delta Electronics

Delta U+ Far-UVC Light Care 222® Series

The new Delta U+ Far-UVC Light Care 222® Series employs the Care 222® technology from Ushio, a Japanese leader in special light-source technologies, as the best UV disinfection solution. Featuring contact and residuals free sterilization, the series serves as a more effective disinfectant than alcohol by inactivating viruses and bacteria on the surface of objects and in the air, thus delivering better performance for pandemic prevention.

Full Information

Delta M+ BrainCare Light

Delta M+ Light uses patented multi-frequency lighting technology, so that human eyes are not disturbed but are actually stimulated by the 40 Hz flickering light frequency while reading comfortably and improving brain function. Authoritative experimental results have confirmed that subjects receiving 40Hz light stimulation noninvasive audio-visual treatment over a six-month period exhibited a significant 83% slowing in the rate of decline in memory and cognition, as well as a reduction in brain atrophy and volumetric loss.

Camfil Taiwan

Full Information

EPA, HEPA, ULPA, FILTERS, AIR CLEANER, AIR PURIFIERS

Camfil provides COMPLETE RANGE OF PROSAFE™ FILTERS FOR MEDICAL AND STERILE MANUFACTURING OFFERS THESE BENEFITS:

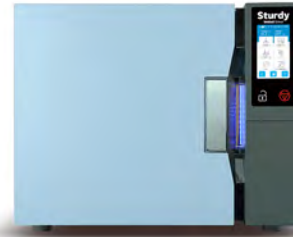

- Specially developed for process safety in medical and sterile manufacturing environments

Sturdy Industrial Co., Ltd

Prime 30L Sterilizer

- Smooth 5" Full-color touch panel control system.
- High-precision PT100 Sensor accurately controls sterilization.
- Fast cooling system, lowering the liquid temperature more safely and quickly, saving waiting time.
- Optional biohazard filtration sys

Prime 30B Class B Autoclave

- 5" Touch Panel HMI - Human-Machine Interface.
- Digital Temperature & Pressure Control.
- Efficient air removal by the powerful vacuum system.
- 316L grade stainless steel chamber and door, more strength and stability.

Full Information

KOYO SEIMITSU CO.,LTD.

Full Information

外形尺寸：155×159×110

Room pressure controller [PEC-X]

- A pressure sensor, controller, communication module and others are incorporated into a single frame.
- The included micro-computer enables greater accuracy through better control than before. In addition, the control logic can be modified even after operation has already commenced by adding or changing applications.

SanJet

FireBlanket

- It can be used for intimal fire extinguishing, covering for escape from fire and industrial instruments for insulation from the heat.
- NoMex special oxidized fiber can bear high temperature when fire occurred.

TherMedic

- Breathable and ergonomic brace secures infrared element or cold pack
- 30-minute auto shut-off safety device
- Mouldable cold pack insert for acute pain, mesh offers protection against ice burns
- Far Infrared heating pad Suitable

The ONE InstantCare Chromogenic Rapid Screening Analyzer

The advanced medical mobile device for trace quantitative antibody/antigen test

ASSA ABLOY

Key Management Systems, Controlling access to keys using automated intelligent systems

The use records of the keys and various management reports are electronically managed and tracked effectively by the personnel who took away the keys. Authorization management. Traditional Chinese web management software.

ABLOY® ACTIVE - An infection reducing antimicrobial coating

- The ACTIVE solution destroys at best 99.9% of harmful bacteria combined with regular cleaning.
- 100% skin-friendly.
- Dazzle with a full range of colors.

TAIWAN CANDEAR INDUSTRY CO., LTD.

Solecheck

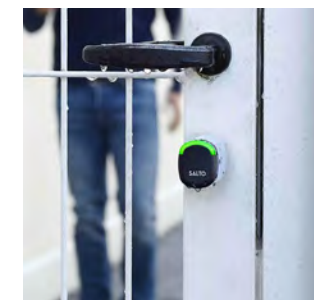

- The inhalation rate of dust with particle size of 0.3µm ~ 100µm is as high as 99.37%!
- Reduce PM2.5 in the air
- The sterilization rate is as high as 99%

SALTO Systems

Gantner NET.Lock System

- Secure and reliable
- Flexible system
- Maintenance-free
- Occupancy monitoring
- Alarmed system

Neo Cylinder

- Simple installation by changing the cylinder. No wiring or drilling work required.
- Wide range of models and options.
- SALTO SVN, SALTO BLUenet Wireless network and JustIN Mobile technology inside.

LTC

Full Information

Electric Tug

- It can be coupled to most kinds of the manual carts we use in the hospital transportation. People work efficiently and safely with the electric tug.
- It's from Dutch. It's easy to use, safe and multi-functional.

Electric Lifter

- Assist in the handling of equipment, potions, etc., reduce occupational injuries, and improve work efficiency. It's oil-free and maintenance-free. Suitable for use in areas with cleanliness requirements.
- Made in Taiwan, customized, maintenance-free, safe to use, flexible

Electric Food Trolley

Electric food trolleys provide fast and labor-saving food delivery services. The thermal insulation function of hot and cold temperatures provides more possibilities and for hospital meals, and keeps the food safe during transportation. It's designed to meet the HACCP specifications.

Yomura Technologies Inc.

Full Information

Clicky Cross

- One-handed operation
- Easy operation; just click the button!
- Color indicator for open/close status
- No leak silicone piston
- Interfaces suitable for Luer& Barb type adapters
- Disposable

Travel Scoot

The TravelScoot™ is with 35 pounds by far the world's lightest and most compact electric mobility scooter. It's the ideal scooter for everyone who's feet are not playing along but who are otherwise still in a fairly good shape.

Parktron Technology Co., Ltd.

Full Information

Smart Hospital Self-service Payment Kiosk

- Intuitive user interface
- Disabled-friendly design
- Multiple Payment
- High-Speed and Accurate Cash Recognition
- Innovation of cash management for daily settlement

Semiflor Corp. Ltd.

Full Information

Semiflor Fasttrack Flooring Solutions
GERFLOR GTI MAX removable looselay tile

- Heavy Traffic Resistance (Dynamic Load up to 6000kg)
- Fast looselay installation allowing the area to remain open. Suitable to installation on any type of surface, such as tiles, concrete, resin and wet surfaces.
- Fast looselay installation allowing the area to remain open.

Semiflor Wall Protection Solutions: Gerflor Mural Plus, Anti Bacteria Linoleum, and Mipolam Ambience Ultra Wall Protection

- No need to use paint, a healthy and no pollution natural decorative covering
- Seamless construction, anti-bacterial surface, washable and easy to clean
- Perfect match with interior decorative products
- No limitation of height; applicable to the lower edge of the ceiling

iXensor

Full Information

PixoTest® POCT System

Portable - Handheld design for ease of carrying to the community.
Efficient - Quick test results and intuitive UI design can fit perfectly into the operation process and improve efficiency.

Eveline · Care fertility telehealth platform with OPK

Insightful Fertility Telehealth Tool to Better Consult Your Patients Offer a more comprehensive and personalized consulting experience to your patients and help them succeed on their fertility journey.

PixoTest® POCT COVID-19 Antigen Testing

- Fast and accurate results - Detect positive cases in 15 minutes, accuracy meets EU standard.
- Standardized analysis - Reduce human error, streamline workflow.
- Smart Screening - Validate tests' authenticity, mitigate organizational risk.

Genetech Biotech Co., Ltd.

Full Information

illumina Next-generation Sequencing Systems

- Illumina has pioneered major advances in sequencing simplicity, flexibility, and platform performance.
- Sequencing output has grown over ten thousand-fold, from less than 1 gigabase to 16 terabases per run, while the number of reads has increased from millions to tens of billions.

NGS Solutions for Clinical Diseases

- Simple and fast
- Flexible selections
- Applicable for research & clinical samples

Bioinformatic Solutions for NGS Data Analysis

- Powerful statistical and visualization tools in an easy-to-use interface
- Variant annotation and interpretation on a genomic scale
- Advanced interpretation technology and clinical reporting

Pharmigene, Inc.

Full Information

Bionano Genomics

Resolve large-scale structural variations missed by NGS systems. Bionano's genome mapping technology directly observes long molecules from 150,000 bp to megabase pair lengths to identify large structural variations typically not detected by short- or long-read sequencing technologies.

S2 Genomics

The Singulator 100 overcomes the challenges with manual tissue preparation methods by producing consistent cell or nuclei isolations from a variety of solid tissue samples, reducing hours of hands-on processing to minutes.

Immudex

Immudex research products are used in flow cytometry, in-situ staining, NGS, and single-cell multi-omics applications. They reveal new insights into epitope discovery and cellular immune monitoring as well as unravel the complex interactions among T cells, B cells, non-conventional T cells, and more.

KIMFOREST ENTERPRISE CO.,LTD.

Full Information

GoL Life Non-invasive liquid biopsy for genome-wide assessment

GoL Life Non-invasive genomewide assessment: By extracted DNA from cells collected by mouthwash, human genetic characteristics are detected and the risks of different traits are reported via Kimforest bioinformatic algorithm and database. This system helps people with their inquiries and concerns about their health and their DNA heritage.

Asia Pathogenomics Co., Ltd.

APGseq-Basic (Metagenomic Sequencing Service for Pathogen Detection)

- Comprehensive: Able to Detect 10,000 types of Pathogens in under One Test
- Precision: Compared to Conventional Methods Increase 60 % Positive Detection Rate
- Efficient: Provide Report in 3 Days to Assist Physicians in Time for Making Clinical Decisions

APGseq-Professional (Metagenomic Sequencing Service for Pathogen Detection)

- Comprehensive: Able to Detect 10,000 types of Pathogens in under One Test
- Precision: Compared to Conventional Methods Increase 60 % Positive Detection Rate
- Efficient: Provide Report in 3 Days to Assist Physicians in Time for Making Clinical Decisions

APGseq-Premium (Metagenomic Sequencing Service for Pathogen Detection)

- Comprehensive: Able to Detect 10,000 types of Pathogens in under One Test
- Precision: Compared to Conventional Methods Increase 60 % Positive Detection Rate
- Efficient: Provide Report in 3 Days to Assist Physicians in Time for Making Clinical Decisions

Daopin Incorporation

Magic Bison: rapid whole genome sequencing data clinical analysis system

- 7 categories in analysis result including diagnostic, ACMG SF, constitution, pharmaceutical, proactive, carrier, HLA
- Choose variants using user defined clinical phenotype terms and over hundred filtering and sorting rules which is embedded in the system for generating report rapidly

Strata Finder: WGS data AI analysis for complex disease

- Find a biomarker rapidly using WGS data
- Apply to predict constitutional complex disease risk (Precision health)
- Apply to support diagnostic in complex genetic disease (Precision diagnostic)
- Apply to find a biomarker for drug effectiveness (Precision curation)

POSH: Portable NGS data analysis device

POSH is a plug and play device for NGS data analysis.

AllBio Life, Inc.

FloraUP

- Non-invasive inspection method
- Next-generation gene sequencing, which is different from traditional microbial culture methods
- Exclusive collection equipment and fecal specimen room temperature preservation solution, no need to freeze the specimen, and it is hygienic

JW Diagnostics Inc.

Alzheimer's Disease ImmunoMagnetic Reduction Test

- Brain health management for the prevention of Alzheimer's Disease
- Evaluation and follow-up of Intervention therapy in Alzheimer's Disease
- Evaluation of neuronal-damage after COVID-19 infection
- Only one tube of peripheral blood (5 mL) needed

Vitae Biomedical Co. Ltd.

Lung Cancer IVD Reagents

- CE certified
- Early Screening for lung cancers
- Non-invasive, Non-radiative, and Easy to use
- Up to 90% of accuracy
- Keep track of cancer progression and treatment effectiveness
- No expensive equipment required

Urine Collection Devices for Lung Cancer IVD

- TFDA certified
- All-inclusive and easy to use urine collection kit
- Non-invasive & non-radiative screening method

Bio Preventive Medicine Corp.

Human uPTM3-DKD (DNlIte_IVD103) ELISA Kit: Prognosis Test of Kidney Disease

- Unique Biomarker
- Predict eGFR Progressive Decliner
- Predicting & Monitoring Renal Function Loss
- Precision Kidney Disease Management: DKD, CKD, AKD, Kidney Transplant
- Non-invasive Urinary ELISA Test

Human uPTM3-DKD (DNlIte_VD103) ELISA Kit: Prognosis Test of Diabetic Kidney Disease

- Unique Biomarker
- Predict eGFR Progressive Decliner
- Predicting & Monitoring Renal Function Loss
- Precision DKD Management
- Non-invasive Urinary ELISA Test

SOFIVA GENOMICS CO., LTD.

智慧基因组 vs 传统检测

项目	智慧基因组	传统检测
检测项目	25项基因 (肺癌、肝癌、胃癌、结直肠癌、食管癌、胰腺癌、前列腺癌、鼻咽癌、卵巢癌、子宫内膜癌、宫颈癌、乳腺癌、胰腺癌、肝癌、肺癌、胃癌、结直肠癌、食管癌、胰腺癌、前列腺癌、鼻咽癌、卵巢癌、子宫内膜癌、宫颈癌、乳腺癌)	2项基因 (肺癌、肝癌)
检测原理	高通量测序 (NGS)	PCR
检测时间	1-2周	1-2周
检测费用	1000-2000元	100-200元
检测准确性	99.9%	95-98%
检测灵敏度	10^-5	10^-3
检测特异性	99.9%	95-98%
检测重复性	99.9%	95-98%
检测稳定性	99.9%	95-98%
检测兼容性	支持多种样本类型	仅支持血液样本
检测应用	早期筛查、诊断、预后评估、治疗指导	早期筛查、诊断

智慧基因组检测项目

检测项目	检测原理	检测时间	检测费用	检测准确性	检测灵敏度	检测特异性	检测重复性	检测稳定性	检测兼容性	检测应用
肺癌	高通量测序 (NGS)	1-2周	1000-2000元	99.9%	10^-5	99.9%	99.9%	99.9%	支持多种样本类型	早期筛查、诊断、预后评估、治疗指导

Cancer Scan

- Detection of Cell-free Circulating tumor DNA (ctDNA) in blood sample
- SOFIVA Cancer Scan : 30 Types of Cancer

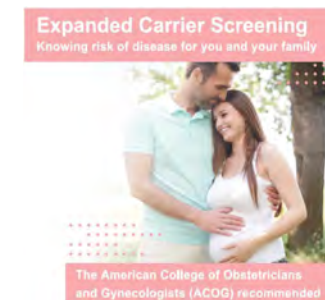

Cancer Risk

- Know the risk of cancer
- Blood test for 30 types of cancer
- Only need to test once in a lifetime

Cancer Monitor

- Easier, Non-Invasive, and Repeatable Sampling Method
- First Blood-based Tests Covering All Four Mutation Classes
- Latest NGS Technology: Detect Low Frequency Alleles with Exceptional Sensitivity and Specificity

Bionet Group / Genetics Generation Advancement Corp.

Expanded Carrier Screening 436

- This test is recommended for people who :
- Would like to understand their risk of having a child with genetic disorder
 - Have a family history of genetic disorder
 - Are closely related by blood (couples with consanguinity)
 - Are planning to use / donate eggs, sperm, or embryos.

Prorich Medical Corporation

Full Information

Prorich® COVID-19 Dry One-Step RT-PCR Kit

- Faster testing results
- Highly stability
- Sensitivity
- Flexible specimen operation
- Multiple nucleic acid target genes
- Numerous specimen type

Prorich® COVID-19 All-In-One Test Kit

- Faster testing results
- High sensitivity
- Multiple nucleic acid target genes
- Numerous specimen type: Nasopharyngeal swab, nasal swab, oropharyngeal swab

Prorich® Coagulation Analyzer

- Detection system: electrochemical determination of the PT/ INR
- User interface: large color touchscreen; screen icons allow intuitive operation
- Memory capacity: 2,000 test results
- Integrated 2D barcode reader for entering user/patient ID and lot numbers of controls

Applied BioCode

Full Information

BioCode Gastrointestinal Pathogen Panel

- The BioCode Gastrointestinal Pathogen Panel provides 17 pathogen test results for 96 patient samples, in 3.5 hours short turn-around time.
- Flexibly report or mask out pathogens.
- Run concurrently with other Applied BioCode panels.

Cov-Flu-Plus 7-in-1 Panel

- Cov-Flu-Plus 7-in-1 Panel uses PCR method to simultaneously detect SARS-Cov-2 and 6 respiratory pathogens, including Flu A and H1, H1 2009Pdm, H3 subtypes, Flu B, and RSV.

BioCode MDx3000 System

- BioCode MDx3000 System can achieve multiple pathogen targets simultaneous detection from each sample, which is more comprehensive and efficient. The system is capable of running at most 3 panels at the same time for DNA/RNA extracted from different sample types including stool, nasal swab, and others.

LumiSTAR Biotechnology, Inc.

Full Information

One Step SARS-CoV-2 Neutralizing Antibody Detection Kit

- One-step design is convenient for operators
- Semi-quantitatively testing of effective SARS-CoV-2 Neutralizing Antibody
- Open system design can fit with most ELISA readers

Creaticon Biotechnology Inc.

Full Information

Cogent COVID-19 Antigen Rapid test

- High Specificity performance according to clinical trial
- Detects the antigen protein of all known major COVID-19 variants of concern (including Delta and Omicron)
- Clear and visible results without instrument

STRONG BIOTECH CORPORATION

HelicotecUT®PLUS Paper Type

- Clear and accurate result in 5 to 60 minutes
- High sensitivity, high specificity
- Easy to store at 0~42°C
- Stable for up to 30 months

HelicotecUT® Gel Type

- Clear and accurate result in 24 hours
- High sensitivity, high specificity
- Store at room temperature for 3 months
- Store at 2~8°C for up to 24 months

HelicotecAG® H. pylori Antigen Rapid Test Kit

- Easy-to-Use
- High Sensitivity and Specificity
- Clear, Rapid, and Accurate Result
- No Equipment Needed
- CE 、 bsi ISO 13485
- Storage : Stable for 24 months at 8~35°C

BiOptic Inc.

Qsep Series Bio-Fragment Analyzer

- Open Platform: Any reagent developing company or institution can utilize Qsep Series
- Automated System: Avoid human error
- Optimization of User Interface: Easy-to-use
- High sensitivity, high resolution and high reproducibility

Qamp mini Thermal Cycler

- Palm size and only 1 kg
- Pre-program chip for personal settings
- One button design, easy to use
- Better temperature uniformity with one peltier only

Qexp Series Detection Kit

- No extraction needed, which reduce the time and lower the professional need
- Intuitive design to optimize the workflow
- Combine BiOptic products form a portable lab-in-a-box, used in real-time and on-site detection

Hygeia Touch Inc.

A self-sampling swab for HPV genotyping

- Soft and smooth material helps inserting the swab more comfortable
- Biocompatible material is certified for non-cytotoxic, non-allergenic and non-irritative
- Safety petal stopper design makes sure right depth of swab insertion

BIO-CHECK LABORATORIES LTD.

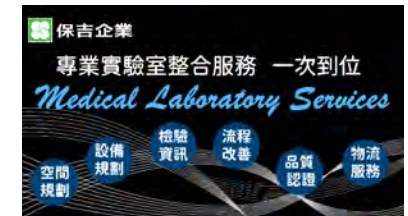

Stago - STA R Max

- Stago - worldwide reference in Hemostasis and a 1st class partner for biomedical laboratories.
- ViscosityBased Detection System (VBDS)
- Fully automated
- Convenient connection to TLA

Zinexts - MagPurix 12 N.E.O.

- Smart and intuitive user interface that allows rapid start of instrument operation
- Optimized protocols providing short processing times
- Easy set-up process with minimal hands-on time
- LIS Connectivity to boost lab efficiency with report analysis

Laboratory design service

- About 20 years of experience in out-source of lab and health checkup center service, and completed more than 20 medical labs design in Taiwan.
- Completed products portfolio to satisfied with customers' needed.

Chroma ATE Inc.

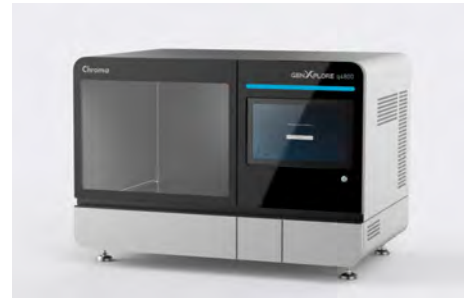

Full Information

MagXtract® 3200 Automated Nucleic Acid Extraction and PCR setup system

- Open platform system
- Applicable for various kits.
- Patented whirl-and-stir mixing
- Integrated liquid handling
- Intuitive and user-friendly interface
- Full traceability

GenXplore q4800 Sample-in-result-out qPCR based platform

- All-in-one solution
- Just 3 steps to start a run
- Reliable results
- Open platform for various kits
- Various applications
- Bench-top workstation

CYTENA Bioprocess Solutions co., Ltd.

Full Information

S.NEST High throughput microbioreactor

- The S.NEST increases efficiency and productivity for biologics production, drug screening and functional genomics.
- When using the S.NEST, cells show higher density and viability compared to normal incubation, and weeks of cell expansion are no longer necessary.

C.NEST High throughput microbioreactor

- C.NEST is the High-throughput Cultivation with four incubation chambers in one system, performing up to eight plates of static culture or up to four plates of mixing culture.
- C.NEST has the Independent control of temperature and CO2 level in each chamber.

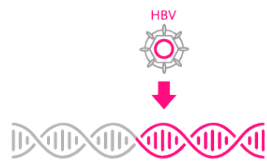

F.QUANT High-throughput Titer Quantification Assays for Antibodies and Fc(Fab) Fusion Proteins

- Direct titer quantification from culture supernatant
- No cell removal or wash necessary
- Optimized for clone screening in CLD
- Easy mix, shake and read workflow
- Simple automation on liquid handlers
- Assays require as little as 5 µL supernatant

TCM BIOTECH INTERNATIONAL CORP.

Full Information

■ 肝癌患者若同時為B肝感染者，約90%可觀察到病毒核酸片段隨機插入宿主DNA，此嵌合DNA片段可作為與其他癌症區別的腫瘤標記。

PLTenus PLUS PLATELET CONCENTRATE SEPARATOR

- High PLT concentration
- High PLT purity
- Low WBC retention
- Release high concentration of growth factors
- Simple operation

CATCHIMERA liver cancer detection platform

minimal invasive procedure, positive rate is higher than AFP, and can be detected earlier than CT imaging

LuminX Biotech Co., Ltd.

Full Information

LuminX Tracking Kit

- one-step easy labelling
- suitable for many common cells
- excellent biocompatibility
- non-toxic towards cell
- stable fluorescent signal output

tst biomedical electronics Co., Ltd.

iProtein Reader

- Portable (Palm size)
- Quantitative Results
- Only 1 drop of whole blood(5µL)
- Result within 3 minutes
- Easy Steps

Schweitzer Biotech Company Ltd

EZtargex

- "Load and Go" design
- 1-16 samples per run
- Single package of PCR premix for all assays
- Ready-to-use lyophilized reagents
- User-friendly touchscreen interface
- Results available in 90-120 minutes

cPCR - Handheld Nucleic Acid Amplifier

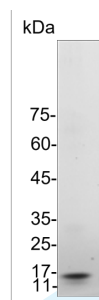

- Eight sample wells
- Dual-channel fluorescence measurement
- Compact: 20.4x 9.8 x 6.7 cm
- Lightweight : ~750 g
- Stand-alone operation via 4.3 resistive/ capacitive touchscreen
- Identification of test location via GPS

EZextractor

- Fully automated magnetic bead operating platform designed for large sample size requirement
- A walk-away solution and effort-saving approach in contrast to complicated manual spin column operations
- Touchscreen, 8, 16 or 32 samples per run.

BIOTOOLS CO., LTD.

Croyez GMP® IL-2, Human

- Measure by its ability to induce proliferation in CTLL-2 cells. The ED50 for this effect is <0.2 ng/mL.
- The specific activity of recombinant human IL-2 is approximately >2.5 x 10⁷ IU/mg.

Caduceus Biotechnology Inc.

SpinScan Microarray Scanner

- Multiple chips-SIX slides can be read at one time with patented technology applied.
- Fast scan speed-average <4 mins/chip @10 um resolution with small scanner size.
- Ozone protection by a unique holder can minimize signal degradation.

Ding Fong Scientific Co., Ltd

MGI Genetic Sequencer DNBSEQ-T7

- MGI'S proprietary DNBSEQ technology,
- High-speed : 24 to 30 HOURS for PE150 sequencing
- High-flexibility 4 FLOWCELLS, PE150 and PE100 at the same time
- Ultra-high Throughput: Up to 6T/DAY. High quality data 24/7

MGI Genetic Sequencer DNBSEQ-G400

- High quality : Advantages of DNBSEQ™ technology, Zero error accumulation, low amplification bias, low index hopping.
- Multipl choices : Two flow cell types, FCL 1800M reads, FCS 550M reads. Dual flow cell system, One or two flow cells covering 550M~3600M reads/run.
- High speed : Short sequencing & time

Chiline CATCH System - CTC AutoProcessor

- Negative selection : With one push of a button, all types of circulating tumor cells (CTCs) can be captured.
- Fully automated process : No manual intervention required for specimen preprocessing and high reproducibility.
- Customization : Customized report layout supported.

Chain Logic International Corporation

NSW Automation/ M2 Automation/ Dispensers

NSW Automation/ M2 Automation can provide the semi-auto and fully auto dispensing solutions, including aspiration and bulk dispensing on bio wafer, biochip or glucose test strip. We also provide customized solution that combines dispensing and electricity test which can meet the requirement of Biochip.

Visionatics Inc.

Digital Magnetic Barcoded beads Fluorescence Reader

- Fast Scan: Quick mode 10s/well; Standard mode 30s/well.
- High sensibility: barcoded beads multiplex detections increase the sensibility of severe disease prediction.
- High throughput: good for mass test needs of clinical samples amid the pandemic.

Circulating Tumor Cell Scanner for Liquid Biopsy

- Applications :
- Monitoring cancer progression & metastasis
 - Cancer treatment selection & response
 - Drug resistance& Recurrence prediction

Real-time LAMP Point-of-Care Tester

Lamp-V50 is simple to operate and functional, including a set of cameras, white light source, temperature control system and image processing system, using 0.2 ml PCR tubes for color interpretation. One well can detect one sample, and a maximum of 16 samples can be analyzed in one experiment.

Shuz Tung Machinery Industrial Co., Ltd.

DigiPath Slide Scanner

DigiPath Slide Scanner can provide digital slide fluorescence scanning with auxiliary Helicobacter pylori automatic detection and marker. The digital Slide image generated by DigiPath Slide Scanner is stored in the cloud to assist physicians in multi-consultation.

Leadgene Biomedical

LEADSPHERE™ Lyophilization Technology

- Sphere format to ease aliquot
- Assure activities of your biomolecules
- Work with 20 µl mixture (~ 3.3 mm diameter) or more
- Fully custom process and customer support

GMP-Grade Proteins

- ISO13485/GMP certified
- Lyophilized package
- High purity
- High stability

Leadgene® One-step RT-PCR Master Mix

- Trump, the traditional two-step method, requires converting RNA to cDNA before PCR amplification.
- Compatible with Leadsphere™ Lyophilization Technology for a lyophilized format (glycerol-free).
- Optimized for quantitative PCR and isothermal PCR systems

USI Corporation

ViviOn™ Cyclic Block Copolymer (CBC)

- High UV Transmittance
- Low Auto-Fluorescence
- High Purity (Low Extractables, Leachables)
- Transparent Plastic
- Chemical Resistance

TSENG HSIANG LIFE SCIENCE LTD.

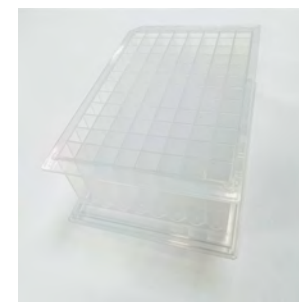

Endotoxin Recombinant Cascade Reagent (rCR)

The sensitivity for recombinant chromogenic assays is determined by the lowest standard concentration on the standard curve used for the assay. The maximum sensitivity of PyroSmart NextGen® is 0.005 EU/mL when run in an incubating microplate reader (or 0.001 EU/mL when run in Pyros Kinetix® Flex tube reader).

Biological Indicators

- 24 hour results for steam or H2O2, 48 hour results for EO
- Easy to Culture
- No Laboratory Required
- Dramatic Color Change

LIAN CHAN PRECISION CO., LTD.

96 well plate

Cell culture. Use of reaction assays. Suitable for biological fields, such as PCR, PIAEIA, cell culture, DNA detection, nucleic acid extraction experiments, etc.

8 Strips Rod Comb

Use with 96-well plate for nucleic acid extraction, protect the magnetic rod from contamination and prolong the service life of the magnetic rod

saliva sample collector

Simplify the saliva sampling process

DOUBLE EAGLE ENTERPRISE CO., LTD.

Full Information

LIEBHERR undercounter Laboratory Refrigerator/ freezer(4°C /-20°C)

- Highest Performance
- Energy Efficient
- Reliability
- Safety
- Easy to Clean
- Easy Maintenance

IC Biomedical LN2 container(cryo-box storage)

- Maximum holding times,
- Lower per vial operating costs
- Fewer refills.

KUBOTA tabletop centrifuge

- User friendly
- The safety is the priority design for the operator
- Low energy consumption.

Hakuto Taiwan Ltd.

Full Information

FLAT EXCIMER [EX-400]

- The use of flat and long lamps is conducive to uniform illumination of a large area.
- Using RF (high frequency) discharge method, the output is stable & flicker reduction
- The wavelength is 172nm, which helps to improve the cleaning effect.

FLAT EXCIMER [EX-86U]

- Compact and lightweight.
- Provides stable output with minimal flicker by utilizing RF discharge.
- All-in-one design with built-in power supply.
- Power supply auto-tuning function for efficient light emission.

FLAT EXCIMER [EX-mini]

- All-in-one light source built into the irradiation box
- Small enough to carry around with you.
- Uniformly irradiates a large area.
- Ozone decomposition unit E12685 (sold separately) for handy indoor exhaust (no exhaust ducts needed).

HGiga Inc.

Full Information

Collaborative Management Platform for Specimen Carrier

- Role-Based Access Control to ensure the security and accessibility of specimen data.
- Section Code Digitization and Cassette, Slide Marking System
- Easily Web-Based Inspection Process Control

OPXION Technology Inc.

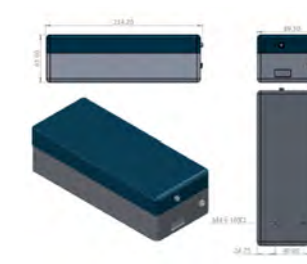

Full Information

3D SKIN VIEWER

- 2.1kgs portable design, single-hand usable operation.
- micrometer-scale high resolutions.
- High-speed 3D visualization provides multi-angled three-dimensional skin analysis.
- Without using dye or contrast agents.
- Providing many sorts of skin information.

NIR high-speed spectrometer

- Our NIR high-speed spectrometer can provide a much higher acquisition speed (~hundreds to one thousand times).
- It captures the instantaneous variation in measured spectra.
- Its software and interface make easy integration with the existing equipment for the end users.

NIR Superluminescence diode module

- Our NIR Superluminescence diode module makes integration of power supply, temperature control and current driving, with automatic protection to prevent from extra damage due to the abrupt increase in the environmental temperature.

G4 Technology Co., Ltd.

NEUROCLE AI Auto Deep Learning Vision Software

- Combine models and visualize data structure
- Automate data labelling for higher task efficiency
- Simple and intuitive navigation structure
- Effectively reduce resources on data management

AVIO Infrared Thermal Imaging Camera

- The temperature detection threshold can be set by yourself.
- The single-person mode can be used with access control system to monitor body temperature.
- With the multi-person mode, people can be quickly screened while traveling without stopping.

Atik VS Series CCD Camera

- Provide the highest quality images in low light conditions.
- The built-in cooling system makes the image quality stable.
- The resolution is up to 6M px/s.
- Meet the needs of low-light environments and fast continuous imaging.

Full Information

Charder Electronic Co., Ltd.

MA801 Body Composition Analyzer

- Full-body and segmental fat and muscle results
- Bioelectrical Impedance Vector Analysis
- Muscle Quality
- Multi-frequency 8-point tactile electrode BIA measurement

MS7800 Patient Transfer Scale

- Measure patient weight as part of existing transfer process
- Portable and light
- Rechargeable battery

MS2580 Wireless Handrail Scale

- Adjustable Feet
- Castor Wheels
- Built-in ergonomical handrail supports for geriatric and bariatric patients
- Wireless Data Transfer

Full Information

Basler

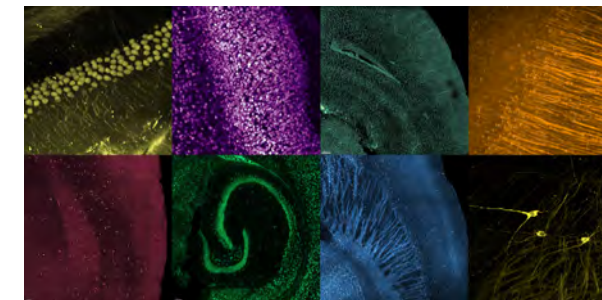

Basler MED ace camera series

- Easy Compliance with ISO13495:2016
- Brilliant image out of the box
- Perfect color reproduction feature made just for microscopy and ophthalmology
- Extra Cleanliness via Dust protection
- Low light imaging feature for lab environment

Full Information

Nebulum

3D Pathology Platform

Combined with multiplex molecular labelling and a high-throughput lightsheet imaging system, tissue clearing technology enables whole-organ body imaging at cellular or subcellular resolution, and detailed whole-sample information of an intact biological specimen.

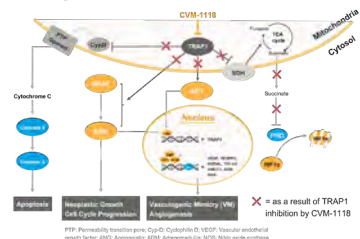

Full Information

TaiRx, Inc.

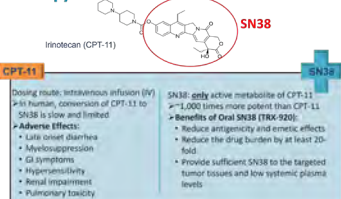

Multiple Functions of CVM-1118

CVM-1118

- New molecule with first-in-class novel target (TRAP1), inhibits cancer cell growth.
- Anti-cancer effect demonstrated in multiple cancer types with IC50 <100 nM
- Xenograft studies showed tumor growth inhibition in breast, colon, hepatoma, melanoma, and ovarian cancer models

TRX-920, oral formulation of SN38 for cancer therapy

TRX-920

- Reduce drug burden of using CPT-11 by at least 20-fold, without compromising overall therapeutic benefit
- Reduce myelosuppression and no hematological toxicity reported for oral CPT-11
- Patients with hereditary fructose intolerance can benefit from oral SN38

Zelnite®

- High manufacturing specification with impurity analysis, creating high entry barrier for competitor
- API developed by TaiRx in accordance with the European Pharmacopoeia
- Similar pH and plasma osmolarity to the human body allows solution to be directly injected.

Syngen Biotech

Mupirocin

Mupirocin, natural antibiotic, is a topical antibiotic used for the treatment of skin infections due to Staphylococcus aureus & Staphylococcus pyogenes. Mupirocin inhibits bacterial RNA and protein synthesis by specially binding to bacterial Ile-tRNA synthetase, which catalyzes the formation of complex of Ile-tRNA.

Mupirocin calcium

- Mupirocin calcium, the calcium salt of mupirocin, possess higher thermal stability than free acid form.
- This specific stability is particularly favorable in formulations that involve higher temperatures.

Bacillus coagulans

- Bacillus coagulans is a pharmaceutical grade probiotic with natural endospores as its protective layer. It can tolerate external stress such as acid, alkali and high temperatures, and can be stored at room temperature without refrigeration.
- This API ingredient is registered with a drug licence.

Foresee Pharmaceuticals Co., Ltd.

CAMCEVI

- First in Taiwan with 505(b)(2) NDA
- Listed by the American Cancer Society along with other major GnRH agonists as one of the hormone therapies of prostate cancer.
- Received a unique J-code from Centers for Medicare & Medicaid Services (CMS)

FP-004

The developed formulations include: 1-month and 3-month long-acting injections. The sustained-release property can maintain the effective level of the ingredients in the blood, thereby reducing side effects and avoiding treatment interruption, instability and misappropriation of oral formulations.

FP-011

Goserelin drug itself has proven to be safe and effective in clinical applications. FP-011 is a long-acting sustained release dosage form, which is administered every three months and every six months, which can reduce the number of injections and improve patient compliance.

Bora Health Inc.

Numient extended-release capsules

Numient extended-release capsules is brand drug, marketed as Rytry in US. This product is an extended-release levodopamine capsule, its efficacy can be maintained for 5-6 hours, significantly increasing the patient's quality of life.

Const-K Extended-Release Tablets

- The most effective drug to rebalance serum K+ level depends on its high potency
- The safest choice of hypokalemia treatment depends on its superior safety
- The preferred first-line choice for elevated serum K+, high dose to reduce pill burden and increase patient compliance

IMMU BOOST Effervescent Tablet

- Products can be customized according to the needs of people in which territory
- Add vitamin and herbal material
- Good taste and high acceptance by the public

Pharmaessentia Corp.

Ropeginterferon alfa 2b

The process of pegylation of the therapeutic protein preserves its biologic activity by targeting the PEG polymer (polyethylene glycol) at a specific and defined region on the protein. Our pegylation platform increases protein drug's efficacy by prolonging its circulation in blood stream.

Synmosa Biopharma Corporation

ACTEIN EFFERVESCENT TABLETS 600MG

- Manufactured in an PIC/s certified plant which is strictly controlled low-humidity production line.
- Highly reputable brand in the formulation type as Synmosa Biopharma Co. is the largest manufacturer of effervescent tablets in Taiwan, with annual sales over 35 million tablets.

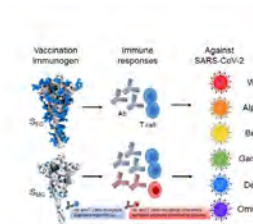

OBIGEN PHARMA

Taiwan Toxin OBI-858

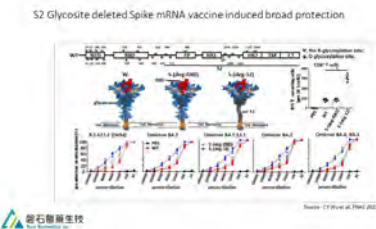

- First 760 kDa toxin protein in market without IP infringement
- Self-developed bacteria strain without IP infringement
- Originated from the same bacterial species as those on the market
- Exclusive excipient
- Low diffusion rate

Rock BioMedical, Inc.

RBM-001 Next generation universal vaccine against COVID: glycan-depleted SARS-CoV-2 spike protein

Compared with the COVID vaccines currently available, our RBM-001 vaccine has the potential advantages to i) confer broadly protective immunity against variants of concern, ii) have reduced adverse effects, and iii) be a more stable product with modest logistical requirements for global distribution.

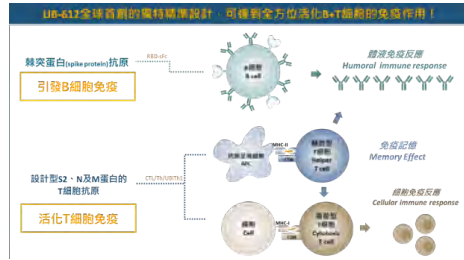

RBM-002 Glycosite-deleted mRNA of SARS-CoV-2 spike protein

Compared with the COVID mRNA vaccines currently available, our RBM-002 vaccine has the potential advantages to i) confer broader protection against variants of concern, ii) yield more durable protection, and iii) have reduced adverse effects.

United Biomedical, Inc., Asia

Full Information

Multitope Protein/Peptide-based COVID-19 Subunit Vaccine, UB-612

Safety & Tolerability:

- High precision designer subunit vaccine targeting its B epitope(s) at RBD without components that may cause adverse effects.
- High safety confirmed by clinical trials.

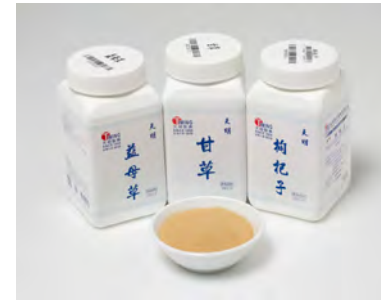

Bo-Ta Con® LHRH synthetic-peptide vaccine

- Reduced sexual and aggressive behavior for immunocastrated pigs
- No surgery, no infection risk leads to better health
- Faster growth for immunocastrated pigs
- Better feed conversion ration by entire males

Timing Pharmaceutical Co. Ltd.

Full Information

Traditional Chinese Medicine (TCM)

GMP Pharmaceutical Factory Manufacturing

- High-Quality Extraction and Concentration
- No Aflatoxin
- No Pesticide
- No Heavy Metals

Antrodia Cinnamomea Mycelium Powder

GMP Pharmaceutical Factory Manufacturing

- High-Quality Antrodia Cinnamomea
- No Pesticide
- No Heavy Metals

Loquat syrup OEM/ODM

- Formulated by Professionals
- Support the immune system
- A few precipitates at the bottom of the bottle when stored for a long time
- It can be served by the spoonful as well as mixed with hot water and enjoyed as a refreshing warm beverage

Reber Genetics Co., Ltd.

Full Information

PRRSQ PRRS Subunit Vaccine

- Significant reduction of abortion rate, stillbirth and reductive failure caused by PRRSV
- Significant improvements in livability at birth, the average litter size, litter weight of newborn piglets
- Significant reduction in levels and duration of viremia

CIRCOQ PCV2 Subunit Vaccine

- Providing both C.M.I and humoral immunity, we guarantee the wide spectrum of protection against PCV2 infection.
- Using emerging strain PCV2d as antigen
- Faster immune responses than traditional subunit vaccine by using patent antigen deliver platform.

ALPS Biotech Co. Ltd.

Full Information

Supplement foods from Antrodia cinnamomea fruiting body

The supplement foods product has major ingredients, including triterpenoids, superoxide dismutase, adenosine, polysaccharides, protein, vitamins, nucleic acids, amino acids, lectins, lignin, antcin, trace elements. These ingredients would be helpful for immune system, and might be applied to many diseases.

CSBio Taiwan Co.,Ltd

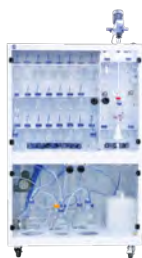

Full Information

Research Scale Peptide Synthesizers-CS136X

- The most flexible fully automated peptide synthesizer on the market.
- CS136X can be used with reaction vessel sizes ranging from 20ml to 200ml with up to 3 reaction vessels for simultaneous synthesis.
- Flexible Chemistry

Pilot scale peptide synthesizer-CS536X, CS936S

CSBio builds peptide synthesizers from research scale to commercial scale manufacturing, and utilizes all of these machines in-house. We are the only peptide synthesizer manufacturer that also manufactures peptides at all scales.

Research Scale Fully Automated Peptide Synthesizers-CSBio II

- Fits in any lab space: Compact unit that tucks away on any lab bench, making your peptide sequences day and night.
- Reliable and easy to use software: Powered by CSBio's CSPEPM™ software, the CSBio II is built off the most robust peptide synthesis software available on the market.

LTS Lohmann Therapie-Systeme AG

Full Information

Transdermal therapeutic system (TTS)

- Easy application with potential to reduce dosage interval.
- Potential route for active substances where no other non-invasive delivery form is possible.
- Controlled, balanced drug release with no peak concentrations for long effect and less side effects.

Oral thin films

- Easy dosage with fast onset of action.
- Possible avoidance of first-pass effect for improved bioavailability and saving costs for active substance.
- Convenient alternative route for injectable active substances.
- Drug release can be customized via different types of OTF LTS technologies.

Micro Array Patch

- Microneedle Patch technology is a delivery system, that shall enable active substances to overcome the skin barrier.
- It helps to enhance the delivery of a drug through the transdermal/intradermal route overcoming various problems associated with conventional formulations.

Advancharis Co., Ltd.

Full Information

Modular-Lab PharmTracer

- Modular Approach for easy extension
- Fully GMP and GAMP5 compliant
- Pre-Validated Processes available
- Independent Programming possible
- No Cleaning Routines necessary
- Easy-To-Operate Interface and software

TEMA SINERGIE DTC-SAS Dispensing Hot Cells

Designed for class C laboratories, GMP compliant dispensing line enables the dispensing of registered radiopharmaceutical by managing materials insertion, vials extraction, sterilisation of the most critical environment.

Eckert & Ziegler GalliaPharm® Radionuclide Generator

The GalliaPharm® is produced under GMP conditions ensuring highest quality standards and is designed to minimize both 68Ge breakthrough and metal impurities. No metals are used within the closed system.

Insilico Medicine

Full Information

PandaOmics™

- The most advanced AI target discovery platform
- Intuitive operation: zero bioinformatics experience is required
- Data Sources: 1.9 Trillion data points including 10M+ samples OMICS database, 1B+ structures chemistry databases, and text database.

Chemistry42™

- Automated de-novo drug design: operate beyond existing screening libraries and skip the effort of scaffold search and structure optimization.
- Scalable engineering platform: Chemistry42 is a seamlessly scalable distributed platform that can be deployed in cloud and on-premise environments.

Strategic collaboration

- Scalable, end-to-end, AI-powered platform designed to seamlessly integrate biology, chemistry & clinical development
- Experienced global team with complementary expertise across AI and drug discovery and development areas

EirGenix, Inc.

Cell Line Development

- Well documented history of host cell line for GMP requirement.
- Monoclonality assured through HD-images of single cell.
- Papid screening to isolate the most productive single cell clones

Process Development

- From microbial cell system to mammalian cell system.
- Our previous project experience includes recombinant proteins, plasmid DNA, RNA, fusion proteins, monoclonal antibodies, and biosimilars.

Analytical & Quality Control Service

We offer comprehensive analytical service for method development, method transfer, method qualification and validation. Our team is dedicated to GMP production with analysis including raw material testing, in-process testing, lot release testing, stability study, cleaning, and environmental monitoring.

METATECH(AP) INC.

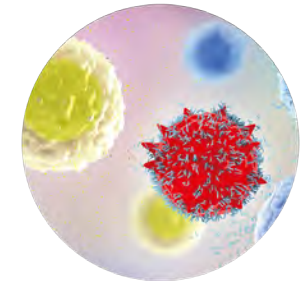

Knee Chondrocyte Cell Sheet Technology

- Shorter recovery period and less pain.
- Regenerates elastic and transparent cartilage.
- Autologous cell culture is used without the risk of rejection.
- The structure of cartilage cell sheet makes the adhesion more stable.

FIBROBLASTS

- Autologous skin tissue culture can reduce side effects.
- Increases the activity of skin cells.
- Increases the rate of cell growth, repairing and reinforcing skin defects in patients.

Immune Cell Bank

- Jointly built the largest cell factory in Asia with Hitachi to meet international regulatory standards and introduce cell therapy related products.
- The storage site is monitored 24 hours a day with automatic temperature control system to freeze the cells at -150°C.

Ever Supreme Bio Technology Co.,Ltd.

New cell drug company on all therapies

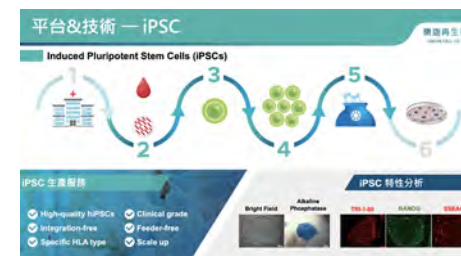

New Drug Development: Focus on immune cell therapies (CAR-T、ADCV、DC-CIK、CIK、GDT) treating cancers and umbilical mesenchymal stem cell treating myocardial infarction, stroke, COVID-19 and other major diseases.

New cell drug company on all therapies

Cell Therapy CMO: Ever Supreme offers the cell products (ADCV、DC-CIK、CIK、GDT and BMSC) needed by medical institution under the Regulations Governing Specific Cellular Therapeutic Technology of 2018 promulgated by Taiwan FDA.

Locus Cell Co., Ltd.

iPSC Technology and Platform Service

- High-quality hiPSCs
- Feeder-free, integration-free & serum-free culture system
- Clinical grade and research grade iPSCs
- iPSC characterization
- iPSC high-resolution genetic analysis

CAR-T Technology and Platform Service

- Closed Automated System Manufacturing Process
- General Manufacturing Process
- Product's quality control test
- IND filling service

Utek International Corp.

Full Information

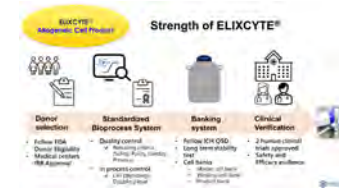

Glove integrity tester

- Computer control, LCD display ; compact structure, lightweight design, easy to use.
- In-situ detecting, which can detect multiple gloves simultaneously.
- Wireless connection with the PC , test data can be transferred by wifi.
- Built-in pump to inflate the glove.

UnicoCell Biomed Co., Ltd.

Full Information

Conditioned medium

- Production by patented proprietary processes
- Significantly increase the unit concentration of stem cell secretome compared to traditional culture method.
- Application & development : Degenerative eye diseases, Chronic wound , and Medical applications

UnicoVial®

- The only cryovial certified as a Class II Medical device
- Patented design convenient for clinical use
- Tamper-evident capping
- Compatible with general market equipment
- Easy to transport and package

UnicoCell-hADSC-WCB

- UnicoCell-hADSC-WCB is the first allogeneic cell bank of adipose-derived stem cells source in Taiwan.
- Significant clinical effectiveness
- Built in accordance with international regulations
- Completely pass safety and virus tests

Miltenyi Biotec B.V. & Co.KG

Full Information

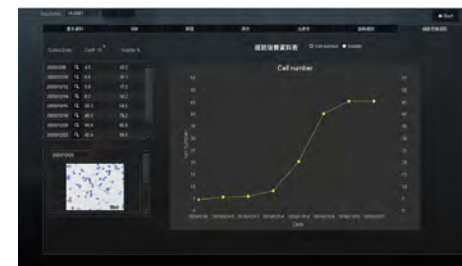

The CliniMACS Prodigy® Platform

The CliniMACS Prodigy offers a flexible platform for cell processing applications enabling the magnetic separation of different cell types as well as customized cell processing protocols. The cell processing unit for fully automated washing, fractionation and cell cultivation.

ADVANCED CONNECTION TECHNOLOGY INC.

Full Information

One-stop digital integration of GTP facility cell culture service.

- The digital platform is connected with the cell culture GTP laboratory, which is conducive to the integration and collection of all data in the development process and facilitates smart medical treatment to improve the research level.
- Genetic testing laboratory makes the process development more diversified.

Cell therapy product contract development service

- Collected through customized digital software from the early stage of research and development, it has a strong integration advantage for research and development information.
- Professional clinician consultation, and the research design is closer to clinical needs.

FULLHOPE BIOMEDICAL CO., LTD.

Immunoprofiling Platform

Immunoprofiling Platform: Provide predicting biomarkers for immune cell therapy.

Circulating Tumor Cells Testing Platform

We utilize the advanced flow cytometer and epitope-specific monoclonal antibodies to precisely identify circulating tumor cells at periphery. Besides, FHB further includes the determination of immune-checkpoints and angiogenesis of circulating tumor cells, such as mutant EGFR, VEGFR1~3 and PD-1/PD-L1.

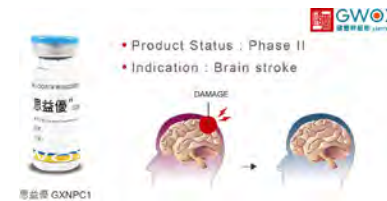

Lukas Biomedical Inc.

Lulym-T

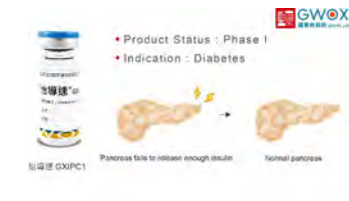

- T cell has long lifespan and it can provide our body with tumor surveillance via bloodstream.
- T cell has recognizing ability and high specificity, it can eliminate cancer cells rapidly upon detection.
- All activated T cells that are cultured by Lukas with purity of more than 95%.

Gwo Xi Stem Cell Applied Technology Co., Ltd.

GXNPC1 (treating brain stroke by using stem cell new drug)

- In pre-clinical data, GXNPC1 has demonstrated that it can increase the expression of homing effect, anti-inflammation and angiogenesis, and in animal stroke model, it showed improvement by behavior tests, including beam walking, locomotor activity, and rotarod analysis.

GXIPC1 (treating type 1 diabetes by using stem cell new drug)

- Delivering qualified allogeneic stem cell overseas for executing clinical trial
- GXIPC1 has been approved by MOH in Vietnam
- The allogeneic stem cell bank is fully compliant with the medical regulation in Taiwan
- off-the-shelf

Technical Services Related to Stem Cell

- Adopting automatic equipments
- Plentiful experience executing cell therapy clinical trial
- Four stem cell therapy medicines are ongoing in clinical trial
- Modular production design can fit the expectation from customers

Meribank Biotech Co., Ltd

New Drug Development

Meribank independent develops mesenchymal stem cells isolation and purification technologies which have been patented in USA and Taiwan. Meribank also skills in stem cell-related techniques that have been protected by global patent strategies.

Contract Development and Manufacturing Organization

Meribank provides mesenchymal stem cell as well as a wide range of research services including trials design, trials implementation, assessment of cell-based drugs, and analysis of biomedical data.

Safe Save Medical Cell Sciences & Technology Co., Ltd

Full Information

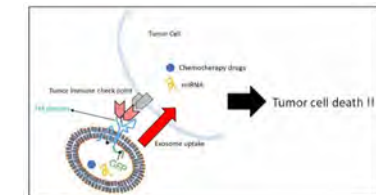

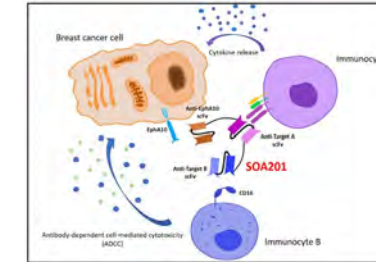

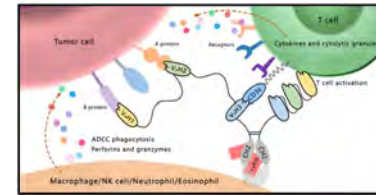

Immunotherapy

- ADCTA, Autologous Dendritic Cell/Tumor Antigen with clinically proven safety and efficacy and almost no side effects.
- ADCTAK, Dendritic Ccell – Cytokine l-induced Killer Cell/Tumor Antigen based on ADCTA's outcome, can be powerful at the start of the treatment cycle.

Shine-On BioMedical Co., Ltd

Full Information

Nano-TriTE (SOA101)

- It effectively penetrates deep into the tumor environment and identify tumor antigens that are masked by structure.
- The CDRs and Fc fragment can simultaneously capture two different immune cells to jointly exert a stronger and complementary anti-cancer effect.

EphA10-TriNKE

- It consists of three scFv antibodies, one binds to "EphA10" on the surface of tumor cells, the other two binds to two types of immune cells respectively.
- This tri-specific antibody simultaneously aggregates tumor cells and various immune cells in the same microenvironment.

Engineering modified target exosome Bi-functional Drugs

- Exosomes are less likely to cause the body's immune response and low toxicity.
- It has a target antibody, which can bind to the immune checkpoint on tumor cells, targeting and enhancing T cell activation at the same time.

DrSignal BioTechnology Co., Ltd.

Full Information

iCell Technology

Automated Cell Production System(iCell technology)

- Services span the entire cell therapy industry chain
- A company with biomedical and intelligent automation integrated, providing professional and dedicated CDMO cell preparation and manufacturing services

Pen-Ling Biotechnology Co.,Ltd

Full Information

Autologous conditioned Serum(Plateletsomes)

Autologous conditioned Serum tube (Plateletsomes) could product more growth factors and IL1Ra, platelet dervied growth factor(PDGF) is 5.4 times more than PRP, IL1Ra (anti-inflammation) is 4 times more than PRP.

EliteCell BioMedical Corp.

EL837 Serum-free Medium for Human Lymphocytes

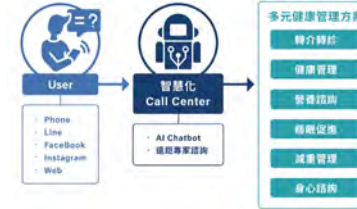

- Chemically Defined
- Xenogeneic Free
- High Performance

EliteGro-Adv. Human Platelet Lysate Cell Culture Supplement

- higher safety (xenogeneic-free, serum-free, injectable raw material)
- more efficacy (50% cultivation time reduced)
- and higher cost-performance material (no additional reagent, nor FBS required) for therapeutic cells production.

Healthconn Corp

Healthconn Smart Call Center

- Multi-channel services, no need to install extra Apps
- Due to the employer's demands, we offered customized integration and management of health.
- Keep collecting Health Education Information, we offer auto-replied FAQ 24 hours a day, all year round.

ITM Series, the Intelligent Tube Management system

- It provides intelligent vacutainer distribution, blood collection information printing, and automatic labeling.
- It is designed to complement the vacutainers without pausing operation.
- It ensures that visual observation is maintained after automatic labeling.
- Desktop design can be flexibly applied to any blood collection environment.

BluePointTM MycoID Kit

- Easy for Use
- 4 hours Assay Turnround Time Detect 26 clinically significant mycobacteria with a single test. Mixed culture can be easily detected as well.
- High Sensitivity
- High Specificity

RFID Guider Technology Co., Ltd.

Guider 800Z

心血管健康智慧手錶 (TFDA認證中)

- ECG心電檢測: ECG detection and analysis
- 血氧監測睡眠呼吸暫停追蹤: SpO2 monitoring and sleep apnea tracking
- 心率變異分析追蹤: Heart rate variability tracking and analysis
- 動態壓力連續偵測: 24-hour continuous pressure monitoring
- 靜態心率監測分析: 24-hour continuous heart rate monitoring
- 量出健康建議報告: Health improvement plan

Guider 800Z ECG SpO2 Smart Watch

- HRV Heart Rate Variability Analysis
- Continuous monitoring of blood oxygen at night
- Sleep monitoring

Guider 900P

通話定位健康照護手環

- 雙衛星多星定位: Dual satellite Multi-constellation
- 精準數據檢測: Precise measurement of health data
- 跌倒警報 一觸求救: Fall detection and SOS button
- 防偽提醒 緊急撥話: Medicine-taking reminder and emergency call
- 安全鎖鑰長者防墜: Warns right away when wearer leaves safety barrier
- 歷史軌跡隨時查看: Browse historical trajectory at any time

Guider 900P Angel Care Senior-Caring Wearable

- SOS button
- Call using one simple click
- 24-hour health care
- Precise localization technology
- It will notify contact when health data is abnormal and wearer goes in and out of the safety barrier.
- Fall detection

M500 Telemedicine Case

M500 Telemedicine Case

M500 is directed at community medical service, health-managing institutions, and physical examination centers. In the meanwhile, M500 provides these convenient services: long-distance video chats, long-distance consultation, AI automatic analysis...etc. And it can also integrate massive freemium services.

CELL DOCTOR LABORATORIES

Full Information

Gut Microbiome Atlas

- Paired patent No. M604959 for personalized and precise intestinal microecological regulators
- Personalized Risk Assessment and Inspection Tracking Patent No. M592153
- Won the 2021 Asia-Pacific BIO Health Biotechnology Award Excellent Quality Award

Personalized Pregnancy Nutrition Formula

- According to the needs of different pregnancy preparation periods, provide personalized nutrition formula for pregnancy preparation
- The nutritionist supports the provision of dietary advice reports
- Nutrient formula has obtained a number of multinational patents and food safety testing

Decentralized Biotechnology Intelligence Co., Ltd.

Full Information

AIoT Smart Insole

- Providing more detail than your sports watch could ever!
1. Exercise intensity sensing
 2. Exercise management analysis
 3. Instantaneous speed
 4. Foot Analysis

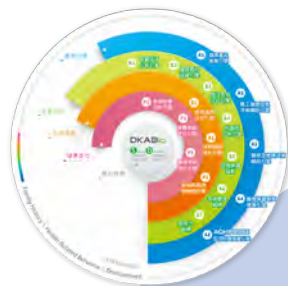

AIoT Wearable Stethoscope

1. The device is thin and comfortable, creating a no foreign body sensation when worn.
2. Accurately senses heart sounds for 24 hours a day, providing a function of self-history heart sound information recordings that can be compared day to day and overtime.

DKABio Co. Ltd.

Full Information

DKABio Smart Health Risk Prediction System

- DKABio is a comprehensive health risk analysis engine:
- ※Expertise:
- The first set of disease risk analysis for 15 chronic diseases in Taiwan
 - Longitudinal database of 5 million people in 20-year period
 - More than 1,200 sub-models established

Digibionic Lifestyle Co., Ltd.

Full Information

Mimitakara MFi RIC Hearing Aid

- MFi Technology
- BLE Technology
- Audio Streaming

Mimitakara True Wireless Stereo Bluetooth Hearing Aid

- App Programmable
- TWS Technology
- BLE Technology
- MFA Technology
- Noise Reduction
- Rechargeable Function

Mimitakara Cloud Self-fitting BTE Hearing Aid with myHearing App

- Simple and easy to test and tune your hearing aid to suit your needs directly through the myHearing APP, to get a clearer sound tailored suited for you.
- Enhances speech – Uses real-time directional microphone technology
- BTE (Behind-The-Ear) design, 8 Channel selections, IP65 rated, and Acoustic Tone connectivity, suitable for Mild to Moderate hearing loss.

SEDA CHEMICAL PRODUCTS CO.,LTD.

[WhizPad] Care mattress management system

The features of 「WhizPad」 are high comfort, ease to install, Intuitive to use, and high safety so that users could do self-health management or telecare applications to enhance the life quality and health status without changing any habits or environment.

SEDA Anti Decubitus Mattress (Non Sterile)

- The non-powered support surface is designed to maintain the skin integrity of patients and prevent pressure ulcers.
- The firmness of the mattress is regulated according to the contact body and environment temperature, and it could maximize the body contact area on the mattress.

OHGA SMARTTHINGS CO., LTD

The Première Journey

- The detect/analysis tech of NASA Skin B project.
- Diffuse Optical Tomography tech (DOT)
- Electric capacity moisture detect/analysis tech.
- High accuracy, light-weight and portable.

AI Data Collection Analyzer

- Continuous Data Monitoring: Data Sets : 1-Million Data Monitoring In Cloud
- Multi-Interface: RS-485/Digital Input, Analog Input(4-20mA), RTD/ThermalCouple
- Official Reports: USB Download Cloud-push Report

Zeta-potential Particle size analyzer

- ELSZneo can easily measure a wide range of concentration samples, from dilute solutions to opaque solutions can be analyzed.
- The special sample container configuration allows direct analysis of the boundary potential of high salinity samples to measurement of drug stability in the human body.

Liverage Biomedical Inc.

Semiconductor Intravenous Laser Irradiation of Blood

- Reliable & Stable Laser Output Power
- Low Power Consumption Design
- Adjustable Output Power
- Optional Laser Wavelengths for Different Treatments
- Therapy Setting Function: Achieve 2~3 wavelengths of light within a channel

Multi Function Bio Light

Multi-Functions Phototherapy
White light, Blue light, Yellow light, Red light

3 wavelength LED Mask

- Awarded Patent: Wavelength with physiological feedback
- Produced by Taiwan GMP Medical device factory
- EMF ~0
- Energy saving
- Removeable soft silicone light homogenizing film
- Rollable, foldable

Vigorous Health Company limited

600cc 2 in 1 H2 generator.

- Global exclusive 600cc 2-in-1 Hydrogen Gas/Water Generator
- Most advanced PEM technology, Hydrogen gas of 99.999% purity certified by SGS
- Single user(600cc) or dual user (300cc per user)
- Light weight with a compact size of less than 4 kgs

120 cc Mini-Portable Hydrogen Generator.

- Innovative handy design with less than 1kg weight
- Exclusive 120cc/min output with portable trendy bag
- Most advanced PEM technology to generate 99.999% PURE Hydrogen gas, SGS certified

500cc H2 generator.

- 500cc H2 outflow/min
- 99.995% H2 purity(SGS certified)\
- PEM Technology
- 2 hours/8 hours setting, one touch and easy to operate

ProMedica Co. Ltd.

HUR

The HUR devices and solutions are designed to use strength training as a therapeutic modality in prevention, treatment and rehabilitation of several health concerns and diseases by using the HUR's Natural Transmission method.

Neural rehabilitation training related equipment

Active and passive two-in-one exercise training, improve joint range of motion and muscle strength, quick disassembly and replacement of handrails, wheelchair can be directly in and out without transposition

reciprocal sanding exercise

- The unique design of the slide rail, with the distance scale scale, is beneficial to visually observe the moving distance.
- Adjustable resistance design, weight selection pieces are divided into three types: 0.5, 1, 2 kg, two of each type.

HOLD FUTURE Science and Technology Trade Co., Ltd.

Biomechanics Medical Corrective Insole

Professionalism, standardization, universality, environmental protection, immediate effect
One specification and four sizes of insoles, in order to achieve the appeal of versatility, the size suitable for any age and gender of human beings above the age of nine.

F.I.R. ENERGY Back Stabilizer

NEF-TECH light wave energy fiber uses a variety of natural energy minerals, which are mixed and sintered at high temperature, and then ground into nano-sized powder. Using modern blending melt spinning technology, it is mixed with polymer fiber-type compounds and made by spinning.

Far Infrared Ray Energy Band

NEF-TECH light wave energy fiber uses a variety of natural energy minerals, is mixed and sintered at high temperature, and then ground into nano-sized powder. It is mixed with polymer fiber-type compounds and made by spinning.

Netown Corporation

AI Fat-burn & Heart-rate Monitor System

- No Wearables Needed for leisure and free exercise experience
- Medical Level Accuracy compared with medical pulse oximeter
- Training Target Auto Setup with appropriate strength for user's age
- Auto Loading Adjustment based on real-time heartrate value

Smart Evaluation & Training – Strength & Balance Series

- Interactive Grip Trainer**
 - Medical Grade with up to 90kg measuring
 - Smart Integration with real-time analysis
- Balance Trainer**
 - Easy-to-Go with only 2kg and BT connection

AI Precise Four Limbs Coordination and Strength Trainer

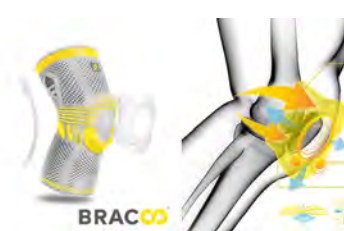

- Multi-Function Smart Exercise & Rehabilitation Machine for arms and legs
- Comprehensive Health Enhance Solution "Evaluate + Advise + Train + Check"
- Upper & Lower Limbs Move with Instruction for Concentration, Reaction, Execution Training

Comfy Health Group Co., Ltd.

BRACOO BP61 Low Back Airy Wrap with Cushion & Fixation

- EFFECTIVE SUPPORT
- DYNAMIC STABILIZATION
- EASILY ADJUSTABLE STRAPPING MECHANISM
- COMFORTABLE TO WEAR
- MORE COVERAGE

BRACOO KP41 Knee Shielder Sleeve Patented Ergo 3D pad

- OPTIMAL KNEE SUPPORT featuring a patented ergonomically-profiled silicone pad ring
- TRI-WEAVE ADVANTAGE
- EMBEDDED LATERAL STABILIZERS
- PERFORMANCE-ORIENTED FABRIC
- REVERSIBLE DESIGNS IN 4 SIZE

BRACOO TE60 Thumb & Wrist Airy sleeve

- EFFECTIVE SUPPORT & PAIN RELIEF
- MILD PROTECTION
- AIRFLOW
- EASY RO WEAR
- COMFORT FEEL

ELVIS HOME ART OF LIVING CO., LTD

Full Information

ELVIS -Graphene Tech dlastic knee cap

- It is an excellent superconductor with the function of constant temperature.
- The Far Infrared contained can help blood circulation.
- With a 94.9% of anti-mite rate and 99.9% of the bacteriostatic rate, no odor remains.

ELVIS -Graphene Tech waist supporter

- It can activate water molecules and increase the oxygen content of the human body.
- It can improve the human body's circulatory system.
- It can boost metabolism.

ELVIS-BIOME anti-virus 2.0 bottom sheet and pillowcase

- 100% natural and renewable composition
- Effective against microbial threats
- Eliminate odors caused by mold and bacteria
- Non-released antimicrobial agent that does not cause allergies or skin sensitivities
- Good washability and long-acting

Reibi Bio-Technology Co., Ltd.

Full Information

Multi-Channel Laser Therapy System With TENS Function

- Integrate independently controllable phototherapy, electrotherapy and negative pressure massage functions with "automatic suction cup adsorption device"
- Biostimulation of laser light
- Transcutaneous Electrical Nerve Stimulation (TENS)

Multi-Channel Laser Therapy System With TENS Function

- Integrate independently controllable phototherapy, electrotherapy and negative pressure massage functions with "automatic suction cup adsorption device"
- Biostimulation of laser light
- Transcutaneous Electrical Nerve Stimulation (TENS)

Pilot version of Schumann wave cloud bed IT8924

- Authorized by ITRI - Schumann Wave Cardio-Brain Resonance Brain Wave Pulling Pressure Relief Device
- The first in the market - the technology that can transmit the Schumann wave main vibration frequency and resonant frequency at the same time
- Real-time comparison calculation

TSM Smart Materials Co., Ltd.

Full Information

Lite SUPPORT U-shaped Wrist Brace

- Product characteristics:
- Strong protection for the wrist.
 - Ideal for mobile phone / computer users.

Lite SUPPORT 3D Breathable Knight Brace

- Supports lumbar and hip-bone
- Prevention and correction for bad posture
- Provides stabilization for the back
- Ergonomic waistline design supports the waist and back

Lite SUPPORT Powerful Wrist Band

- Product characteristics:
- Strong protection for the wrist.
 - Ideal for mobile phone / computer users.

Tse Kang Biotechnology Co., Ltd

Full Information

IPP METATRON Well-Being

IPP Well Being, illustrating the result with 12 indicators, is the latest model in the world. In only five minutes, a quick detection of health risk assessment is done; online reports are sent over LINE; the software system receives update annually.

IPP METATRON Golden Dragon

This version has the top ten systems of Western medicine, 14 meridians and 361 acupuncture points of traditional Chinese medicine, as well as other alternative therapies, including Indian medicine chakra detection, iris detection, etc.

IPP METATRON Intruder

- Antibacterial agents, antiviral drugs, antiparasitic and antifungal drugs have been added.
- Increased database of viruses, worms and fungi.
- Automatic report creation and portable device access.

Wei Ming Pharmaceutical Mfg. Co., Ltd.

Full Information

golden omega The Purest and Highest Quality Fish Oil

- An outstanding sensory profile and extremely clear Omega-3 concentrates
- Pure anchovy from the south pacific by ORIVO certification
- The TG concentrates can be standard TG (TG>60%) or premium TG (TG>90%).

AstaReal® Astaxanthin

Photobioreactors have been individually crafted and specifically designed to allow for optimal maturation of the cells. The result is superior natural astaxanthin products with the highest quality, stability and concentration available in the market.

Isobionics Natural aroma ingredients (fragrance and flavor)

- Premium quality & reliable availability
- Low footprint (1%)
- EU and US natural
- Fermentation-based from renewable resources
- Pesticide free
- Kosher, Halal and food grade

ANYONG Santé Premium-Silver Perch Essence

- Relieving physical fatigue.
- The Taiwan's 1st. Silver Perch Essence that won the Gold Award.
- Scientific golden ratio makes every drop a rare essence.
- The latest technology from Japan to preserve freshness.

Full Information

ANYONG BIOTECHNOLOGY, INC.

SunWay Biotech Co., LTD.

Full Information

HCW Probiotics 101 (ODM/OEM Service)

- Vigiis® 101-LAB contains an excellent patented functional strain Lactobacillus paracasei subsp.
- paracasei NTU 101, which is a legally edible probiotic species in EU, Canada, China, and Taiwan.
- Safety and functions have been verified through plenty of scientific studies.

ANKASCIN 568 Plus+ (ODM/OEM Service)

- ANKASCIN® 568-R is extracted from the fermented product of the patented red yeast strain Monascus purpureus NTU 568.
- US FDA approved as the NEW DIETARY INGREDIENT (NDI), clinically proven effective in managing blood lipids, blood sugar and blood pressure.

HCW Probiotics 101with lutein (ODM/OEM Service)

- USA FloraGLO Lutein (multiple clinical trials, Freeform lutein improve absorption) .
- Vigiis® 101-LAB has clinically proven benefits for balancing the microbiome and improving gut transition.

NATURAL BEAUTY BIO-TECHNOLOGY CO., LTD.

Full Information

Stremark Emollient Cream

- Contains a variety of botanical extracts
- Balances pH value into a weak acidity level

γ-PGA Hydrating Complex Serum

- Avoids moisture dissipating and long-lastingly moisturize inner cells
- Keeps skin dewy and elastic

Moisturizing & Soothing High Performance Extract

- Contains a variety of special bioactive essences
- Deeply repairs and stabilizes skin

SilvRight Biotech. Co. Ltd.

Nasil Oral Gel

- Protect the damaged or ulcerated oral mucosa from foreign objects or external forces
- Reduce the pain and discomfort of patients with oral ulcers.
- In a clinical trial conducted in National Taiwan University Hospital, it was found that it has a very obvious improvement effect on the recovery of oral mucositis caused by radiotherapy and chemotherapy.

Nasil Mouthwash

- Cool and not irritating
- Powerful and long-lasting bad breath removal effect
- With proper oral hygiene, it can effectively prevent the occurrence of periodontal disease

BESTCHANCE TECHNOLOGY LTD.

Bestchance Menstrual Cup

- Made in Taiwan
- Preventive healthcare
- Good for women
- Safety Certification
- Fashion trend
- Net Zero Environmental policy
- Preventive healthcare

Bestchance disinfectant

- Elimination rate 99.9%
- Remove odor
- Disinfection
- Against bacteria
- ph5.5-6.5, non-irritating

Taiwan Taiko Pharmaceutical Co., Ltd.

Cleverin Gel

- Cleverin Gel consists of sodium chlorite liquid, pH adjuster and highly water-absorbing resin, generating long term stable concentration ClO2 gas.
- Using the special oxidizing function of ClO2 gas, it oxidizes the protein of virus, bacteria and fungus, lowering the risk of virus and bacteria.

Cleverin Stick

Cleverin consists of an exchangeable plastic stick which can generate ClO2 gas and a pen type designated case. Inside of the plastic stick, there are a glass ampule filled with sodium chlorite solution and a tablet of mixture of pH adjuster and highly water-absorbing resin.

Ace Pinnacle Co., Ltd.

Mastectomy wireless Pocket bra

- Beautiful back design: easy to match with outerwear
- Wireless bra: soft and skin-friendly, full of comfort, and can be rolled up for storage.
- High side design: Enough wrapping, hiding the wound while increasing the support.
- Wide shoulder straps: Comfortable shoulders can support the weight of the breast

M-01 Top Double Film Back Nanoparticle Lightweight silicone breast form

30% lighter than the general breast form, with nano antibacterial material on the back Made of top-quality materials, will not feel cold in winter, not sultry and hot in summer. Could be maintained at an excellent temperature. Suitable for long-term wearing.

Pressure cuff to prevent postoperative edema

- High quality: pressure cuffs used in the postoperative system.
- Super comfortable: high elasticity, making the joints move freely; shoulder strap is designed to prevent slipping.
- Breathable elastic fabric with unique mesh weave.

SUPER QIN ENTERPRISE CO., LTD.

Shaping a World of Trust

Cybersecurity Testing and Assessment for Medical Devices

- Evaluate cybersecurity systems according to TFDA, FDA, MDR, IVDR, UL 2900-2-1, IEC/TR 60601-4-5, IEC 62443 standards or BV internal checklist
- Meet the testing requirements of national security standards

Shaping a World of Trust

International Standard Certification Service

Product information security testing/assessment services: medical equipment network security, open source compliance, embedded systems, cloud information security, Internet of Things, Internet of Vehicles, Internet of Medicine, industrial control system information security.

Shaping a World of Trust

Consumer Product Testing Services

- Services include:
- Wireless testing and certification: Bluetooth certification, WiFi, NFC, Zigbee (RF), LTE/ 4G
 - Chemical testing: RoHS, REACH, allergen and nickel release testing
 - EMC test
 - Safety test

MING FONG TECHNOLOGY CO., LTD.

Full Information

Mold Development Services

The design team provides detailed evaluation analysis before mold manufacturing to help customers achieve rapid product realization, strictly reciprocating processing maximizes the precision and service life of the mold! The design team provides detailed evaluation analysis before mold manufacturing to help customers achieve rapid product realization

Injection Molding

35 exclusively custom-made injection machines superior to the standard ones are operated in MING FONG's fully equipped workshop, from 100 tons in single shot to 600 tons in dual shot, flexibly and comprehensively providing small-lot or long-run production to domestic/foreign clients.

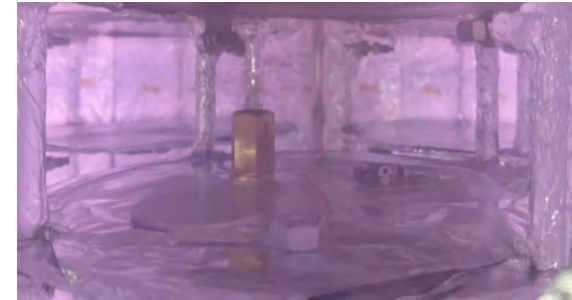

2nd Operation

No need for outsourcing, Ming-Fong integrates various processes to satisfy worldwide customer's need with convenient one-stop service.
